A rectangle has width 3 mm and height 20 mm. Find the perimeter.

**46 mm**

A rectangle has width 6 m and height 3 m. Find the perimeter.

**18 m**

A rectangle has width 5 m and height 18 m. Find the perimeter.

**46 m**

A rectangle has width 18 mm and height 11 mm. Find the perimeter.

**58 mm**

A rectangle has width 5 cm and height 7 cm. Find the perimeter.

**24 cm**

A rectangle has width 16 cm and height 3 cm. Find the perimeter.

**38 cm**

## Solutions – Perimeter of a Rectangle (B)

A rectangle has width 6 m and height 16 m. Find the perimeter.

**44 m**

A rectangle has width 9 mm and height 5 mm. Find the perimeter.

**28 mm**

A rectangle has width 7 cm and height 4 cm. Find the perimeter.

**22 cm**

A rectangle has width 20 cm and height 17 cm. Find the perimeter.

**74 cm**

A rectangle has width 12 mm and height 4 mm. Find the perimeter.

**32 mm**

A rectangle has width 4 m and height 19 m. Find the perimeter.

**46 m**

## Solutions – Perimeter of a Rectangle (C)

A rectangle has width 16 m and height 16 m. Find the perimeter.

**64 m**

A rectangle has width 14 cm and height 13 cm. Find the perimeter.

**54 cm**

A rectangle has width 12 m and height 9 m. Find the perimeter.

**42 m**

A rectangle has width 1 cm and height 4 cm. Find the perimeter.

**10 cm**

A rectangle has width 14 mm and height 1 mm. Find the perimeter.

**30 mm**

A rectangle has width 6 mm and height 16 mm. Find the perimeter.

**44 mm**

## Solutions – Perimeter of a Rectangle (D)

A rectangle has width 20 mm and height 10 mm. Find the perimeter.

**60 mm**

A rectangle has width 9 cm and height 16 cm. Find the perimeter.

**50 cm**

A rectangle has width 18 mm and height 8 mm. Find the perimeter.

**52 mm**

A rectangle has width 12 cm and height 6 cm. Find the perimeter.

**36 cm**

A rectangle has width 7 m and height 5 m. Find the perimeter.

**24 m**

A rectangle has width 16 m and height 17 m. Find the perimeter.

**66 m**

## Solutions – Perimeter of a Rectangle (E)

A rectangle has width 18 mm and height 3 mm. Find the perimeter.

**42 mm**

A rectangle has width 9 cm and height 10 cm. Find the perimeter.

**38 cm**

A rectangle has width 19 m and height 16 m. Find the perimeter.

**70 m**

A rectangle has width 19 cm and height 19 cm. Find the perimeter.

**76 cm**

A rectangle has width 4 m and height 7 m. Find the perimeter.

**22 m**

A rectangle has width 3 mm and height 20 mm. Find the perimeter.

**46 mm**

## Solutions – Perimeter of a Rectangle (F)

A rectangle has width 10 cm and height 18 cm. Find the perimeter.

**56 cm**

A rectangle has width 16 m and height 16 m. Find the perimeter.

**64 m**

A rectangle has width 7 cm and height 10 cm. Find the perimeter.

**34 cm**

A rectangle has width 13 mm and height 18 mm. Find the perimeter.

**62 mm**

A rectangle has width 10 mm and height 1 mm. Find the perimeter.

**22 mm**

A rectangle has width 15 m and height 6 m. Find the perimeter.

**42 m**

## Solutions – Perimeter of a Rectangle (G)

A rectangle has width 4 cm and height 7 cm. Find the perimeter.

**22 cm**

A rectangle has width 6 mm and height 5 mm. Find the perimeter.

**22 mm**

A rectangle has width 8 cm and height 1 cm. Find the perimeter.

**18 cm**

A rectangle has width 1 mm and height 17 mm. Find the perimeter.

**36 mm**

A rectangle has width 19 m and height 6 m. Find the perimeter.

**50 m**

A rectangle has width 13 m and height 12 m. Find the perimeter.

**50 m**

## Solutions – Perimeter of a Rectangle (H)

A rectangle has width 9 mm and height 7 mm. Find the perimeter.

**32 mm**

A rectangle has width 13 m and height 3 m. Find the perimeter.

**32 m**

A rectangle has width 20 cm and height 9 cm. Find the perimeter.

**58 cm**

A rectangle has width 18 mm and height 7 mm. Find the perimeter.

**50 mm**

A rectangle has width 12 cm and height 5 cm. Find the perimeter.

**34 cm**

A rectangle has width 16 m and height 6 m. Find the perimeter.

**44 m**

## Solutions – Perimeter of a Rectangle (I)

A rectangle has width 15 cm and height 15 cm. Find the perimeter.

**60 cm**

A rectangle has width 18 mm and height 19 mm. Find the perimeter.

**74 mm**

A rectangle has width 17 cm and height 9 cm. Find the perimeter.

**52 cm**

A rectangle has width 17 mm and height 18 mm. Find the perimeter.

**70 mm**

A rectangle has width 5 m and height 3 m. Find the perimeter.

**16 m**

A rectangle has width 11 m and height 17 m. Find the perimeter.

**56 m**

## Solutions – Perimeter of a Rectangle (J)

A rectangle has width 13 cm and height 15 cm. Find the perimeter.

**56 cm**

A rectangle has width 10 cm and height 6 cm. Find the perimeter.

**32 cm**

A rectangle has width 18 m and height 15 m. Find the perimeter.

**66 m**

A rectangle has width 13 mm and height 18 mm. Find the perimeter.

**62 mm**

A rectangle has width 1 mm and height 11 mm. Find the perimeter.

**24 mm**

A rectangle has width 18 m and height 10 m. Find the perimeter.
