

## Solutions – Area of a Rectangle (A)

A rectangle has width 20 m and height 4 m. Find the area.

**80 m<sup>2</sup>**

A rectangle has width 12 m and height 11 m. Find the area.

**132 m<sup>2</sup>**

A rectangle has width 4 mm and height 9 mm. Find the area.

**36 mm<sup>2</sup>**

A rectangle has width 1 mm and height 14 mm. Find the area.

**14 mm<sup>2</sup>**

A rectangle has width 11 cm and height 11 cm. Find the area.

**121 cm<sup>2</sup>**

A rectangle has width 14 cm and height 17 cm. Find the area.

**238 cm<sup>2</sup>**

## Solutions – Area of a Rectangle (B)

A rectangle has width 20 m and height 6 m. Find the area.

**120 m<sup>2</sup>**

A rectangle has width 20 cm and height 9 cm. Find the area.

**180 cm<sup>2</sup>**

A rectangle has width 18 mm and height 5 mm. Find the area.

**90 mm<sup>2</sup>**

A rectangle has width 7 mm and height 15 mm. Find the area.

**105 mm<sup>2</sup>**

A rectangle has width 16 cm and height 18 cm. Find the area.

**288 cm<sup>2</sup>**

A rectangle has width 3 m and height 16 m. Find the area.

**48 m<sup>2</sup>**

## Solutions – Area of a Rectangle (C)

A rectangle has width 20 cm and height 2 cm. Find the area.

**40 cm<sup>2</sup>**

A rectangle has width 7 m and height 2 m. Find the area.

**14 m<sup>2</sup>**

A rectangle has width 16 m and height 18 m. Find the area.

**288 m<sup>2</sup>**

A rectangle has width 11 mm and height 20 mm. Find the area.

**220 mm<sup>2</sup>**

A rectangle has width 2 cm and height 7 cm. Find the area.

**14 cm<sup>2</sup>**

A rectangle has width 10 mm and height 13 mm. Find the area.

**130 mm<sup>2</sup>**

## Solutions – Area of a Rectangle (D)

A rectangle has width 15 m and height 2 m. Find the area.

**30 m<sup>2</sup>**

A rectangle has width 14 mm and height 6 mm. Find the area.

**84 mm<sup>2</sup>**

A rectangle has width 11 mm and height 15 mm. Find the area.

**165 mm<sup>2</sup>**

A rectangle has width 9 cm and height 11 cm. Find the area.

**99 cm<sup>2</sup>**

A rectangle has width 19 cm and height 13 cm. Find the area.

**247 cm<sup>2</sup>**

A rectangle has width 14 m and height 13 m. Find the area.

**182 m<sup>2</sup>**

## Solutions – Area of a Rectangle (E)

A rectangle has width 13 m and height 7 m. Find the area.

**91 m<sup>2</sup>**

A rectangle has width 7 mm and height 19 mm. Find the area.

**133 mm<sup>2</sup>**

A rectangle has width 17 cm and height 12 cm. Find the area.

**204 cm<sup>2</sup>**

A rectangle has width 1 mm and height 5 mm. Find the area.

**5 mm<sup>2</sup>**

A rectangle has width 13 m and height 3 m. Find the area.

**39 m<sup>2</sup>**

A rectangle has width 16 cm and height 3 cm. Find the area.

**48 cm<sup>2</sup>**

## Solutions – Area of a Rectangle (F)

A rectangle has width 15 m and height 20 m. Find the area.

**300 m<sup>2</sup>**

A rectangle has width 3 m and height 2 m. Find the area.

**6 m<sup>2</sup>**

A rectangle has width 6 cm and height 16 cm. Find the area.

**96 cm<sup>2</sup>**

A rectangle has width 9 mm and height 6 mm. Find the area.

**54 mm<sup>2</sup>**

A rectangle has width 9 cm and height 3 cm. Find the area.

**27 cm<sup>2</sup>**

A rectangle has width 12 mm and height 10 mm. Find the area.

**120 mm<sup>2</sup>**

## Solutions – Area of a Rectangle (G)

A rectangle has width 9 m and height 11 m. Find the area.

**99 m<sup>2</sup>**

A rectangle has width 19 cm and height 7 cm. Find the area.

**133 cm<sup>2</sup>**

A rectangle has width 9 m and height 2 m. Find the area.

**18 m<sup>2</sup>**

A rectangle has width 3 cm and height 14 cm. Find the area.

**42 cm<sup>2</sup>**

A rectangle has width 15 mm and height 3 mm. Find the area.

**45 mm<sup>2</sup>**

A rectangle has width 12 mm and height 7 mm. Find the area.

**84 mm<sup>2</sup>**

## Solutions – Area of a Rectangle (H)

A rectangle has width 9 mm and height 5 mm. Find the area.

**45 mm<sup>2</sup>**

A rectangle has width 10 cm and height 4 cm. Find the area.

**40 cm<sup>2</sup>**

A rectangle has width 3 m and height 15 m. Find the area.

**45 m<sup>2</sup>**

A rectangle has width 8 mm and height 4 mm. Find the area.

**32 mm<sup>2</sup>**

A rectangle has width 9 cm and height 4 cm. Find the area.

**36 cm<sup>2</sup>**

A rectangle has width 3 m and height 16 m. Find the area.

**48 m<sup>2</sup>**

## Solutions – Area of a Rectangle (I)

A rectangle has width 20 mm and height 12 mm. Find the area.

**240 mm<sup>2</sup>**

A rectangle has width 14 mm and height 5 mm. Find the area.

**70 mm<sup>2</sup>**

A rectangle has width 17 cm and height 2 cm. Find the area.

**34 cm<sup>2</sup>**

A rectangle has width 11 cm and height 13 cm. Find the area.

**143 cm<sup>2</sup>**

A rectangle has width 15 m and height 4 m. Find the area.

**60 m<sup>2</sup>**

A rectangle has width 13 m and height 9 m. Find the area.

**117 m<sup>2</sup>**

## Solutions – Area of a Rectangle (J)

A rectangle has width 18 m and height 19 m. Find the area.

**342 m<sup>2</sup>**

A rectangle has width 12 cm and height 14 cm. Find the area.

**168 cm<sup>2</sup>**

A rectangle has width 15 mm and height 4 mm. Find the area.

**60 mm<sup>2</sup>**

A rectangle has width 13 m and height 3 m. Find the area.

**39 m<sup>2</sup>**

A rectangle has width 11 cm and height 18 cm. Find the area.

**198 cm<sup>2</sup>**

A rectangle has width 4 mm and height 1 mm. Find the area.

**4 mm<sup>2</sup>**
