

Circumference of a Circle (A)

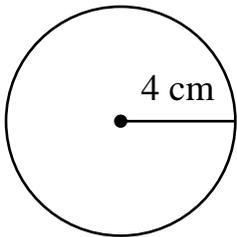

Find the circumference. Give your answer as an exact value.

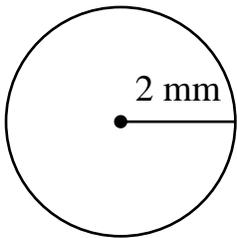

Find the circumference. Give your answer as an exact value.

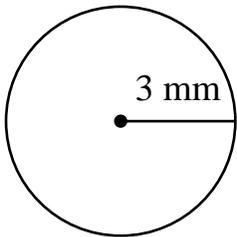

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

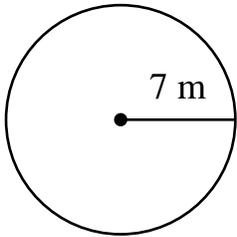

Find the circumference. Give your answer as an exact value.

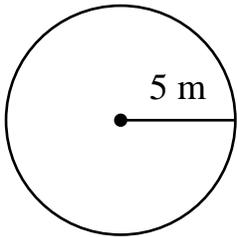

Find the circumference. Give your answer as an exact value.

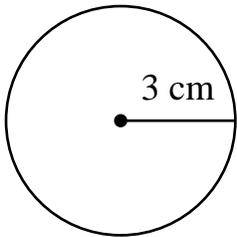

Circumference of a Circle (B)

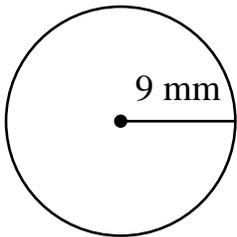

Find the circumference. Give your answer as an exact value.

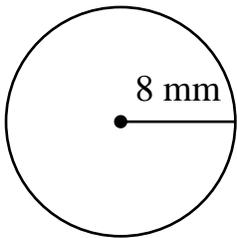

Find the circumference. Give your answer as an exact value.

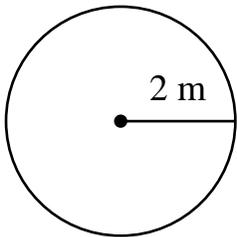

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

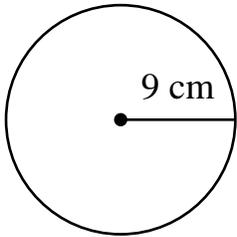

Find the circumference. Give your answer as an exact value.

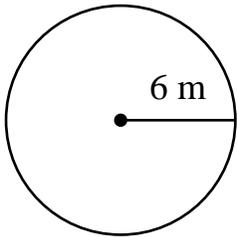

Find the circumference. Give your answer as an exact value.

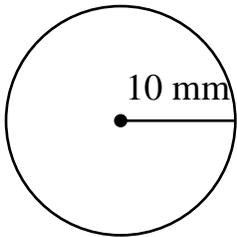

Circumference of a Circle (C)

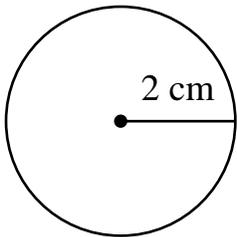

Find the circumference. Give your answer as an exact value.

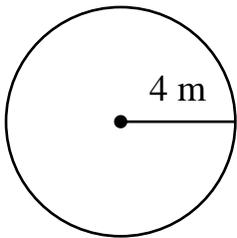

Find the circumference. Give your answer as an exact value.

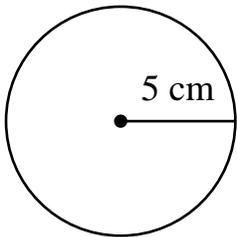

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

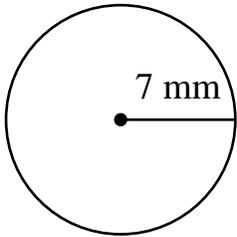

Find the circumference. Give your answer as an exact value.

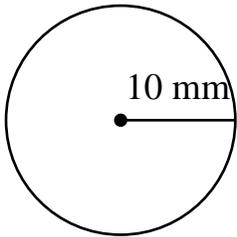

Find the circumference. Give your answer as an exact value.

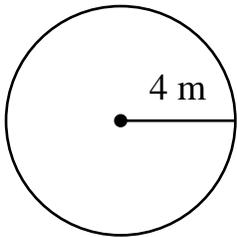

Circumference of a Circle (D)

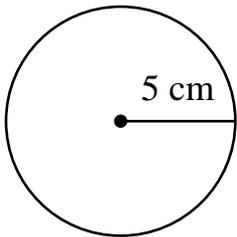

Find the circumference. Give your answer as an exact value.

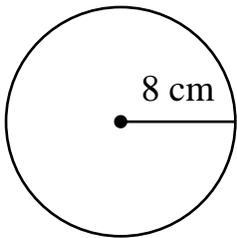

Find the circumference. Give your answer as an exact value.

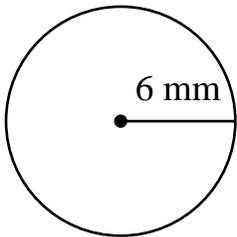

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

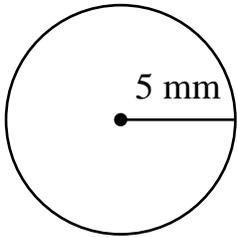

Find the circumference. Give your answer as an exact value.

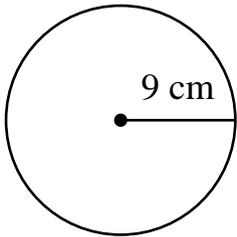

Find the circumference. Give your answer as an exact value.

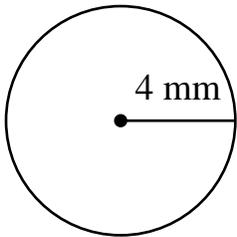

Circumference of a Circle (E)

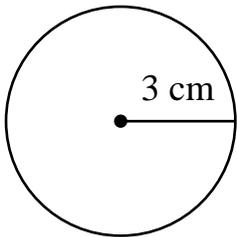

Find the circumference. Give your answer as an exact value.

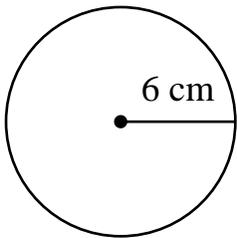

Find the circumference. Give your answer as an exact value.

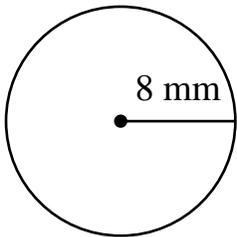

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

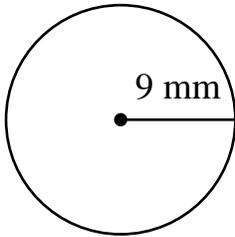

Find the circumference. Give your answer as an exact value.

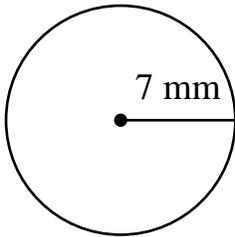

Find the circumference. Give your answer as an exact value.

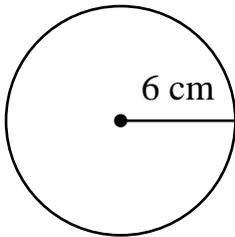

Circumference of a Circle (F)

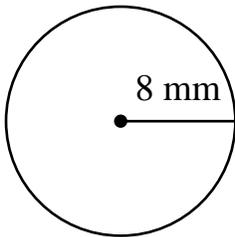

Find the circumference. Give your answer as an exact value.

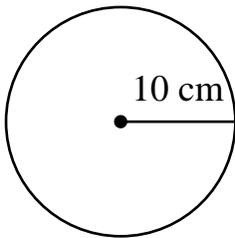

Find the circumference. Give your answer as an exact value.

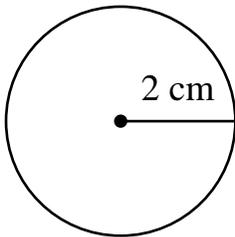

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

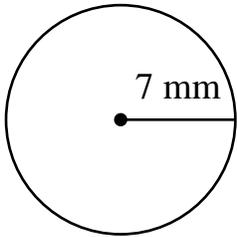

Find the circumference. Give your answer as an exact value.

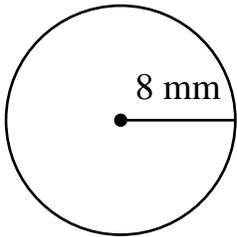

Find the circumference. Give your answer as an exact value.

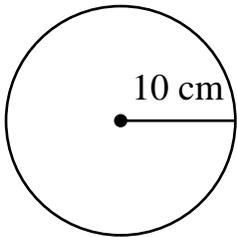

Circumference of a Circle (G)

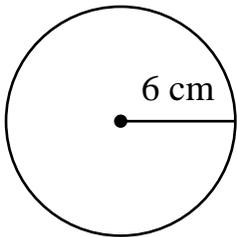

Find the circumference. Give your answer as an exact value.

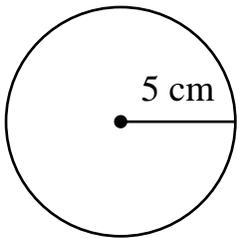

Find the circumference. Give your answer as an exact value.

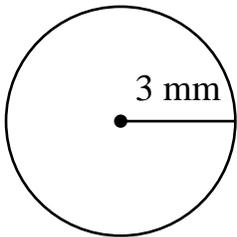

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

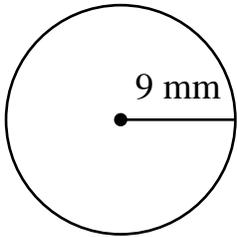

Find the circumference. Give your answer as an exact value.

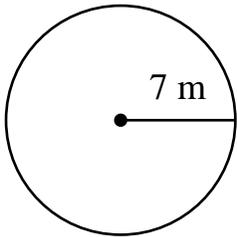

Find the circumference. Give your answer as an exact value.

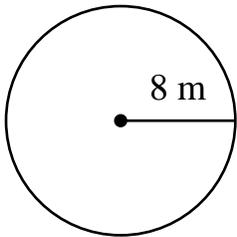

Circumference of a Circle (H)

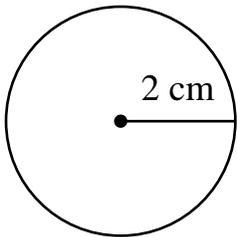

Find the circumference. Give your answer as an exact value.

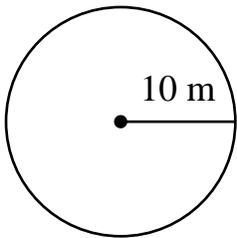

Find the circumference. Give your answer as an exact value.

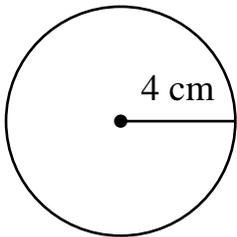

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

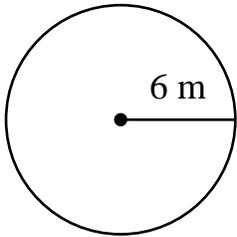

Find the circumference. Give your answer as an exact value.

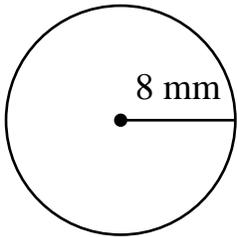

Find the circumference. Give your answer as an exact value.

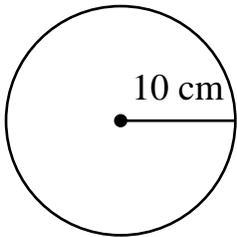

Circumference of a Circle (I)

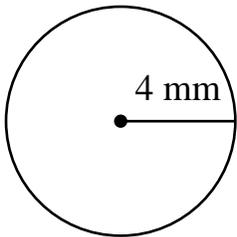

Find the circumference. Give your answer as an exact value.

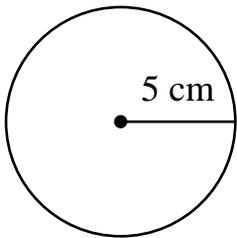

Find the circumference. Give your answer as an exact value.

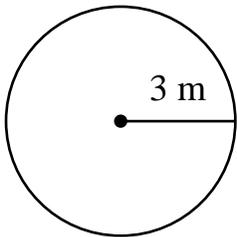

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

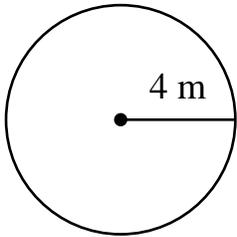

Find the circumference. Give your answer as an exact value.

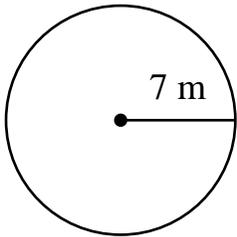

Find the circumference. Give your answer as an exact value.

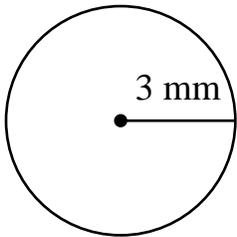

Circumference of a Circle (J)

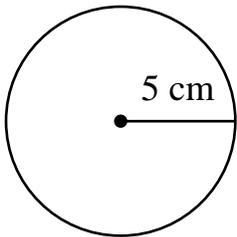

Find the circumference. Give your answer as an exact value.

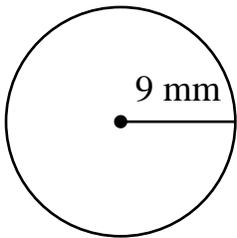

Find the circumference. Give your answer as an exact value.

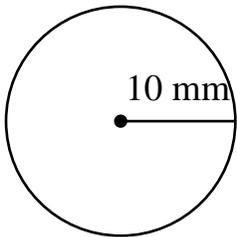

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.

Find the circumference. Give your answer as an exact value.
