

Surface Area of a Sphere (A)

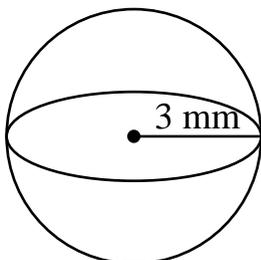

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

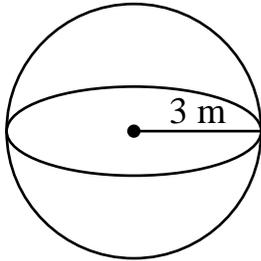

Find the surface area. Give your answer as an exact value.

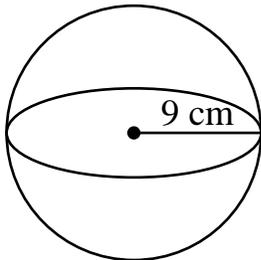

Find the surface area. Give your answer as an exact value.

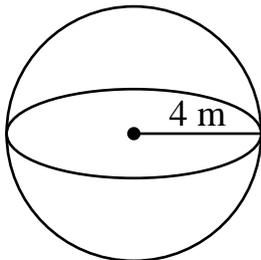

Surface Area of a Sphere (B)

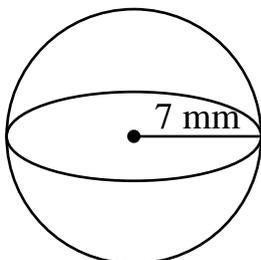

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

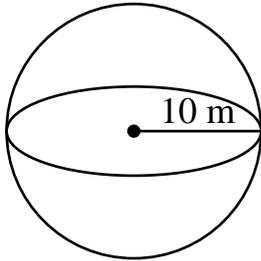

Find the surface area. Give your answer as an exact value.

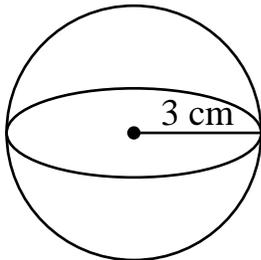

Find the surface area. Give your answer as an exact value.

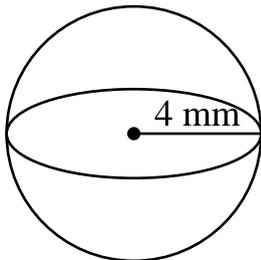

Surface Area of a Sphere (C)

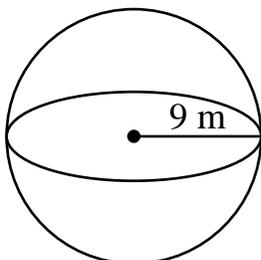

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

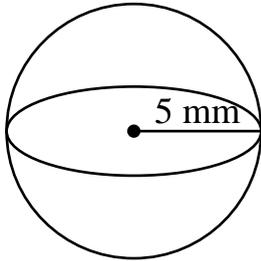

Find the surface area. Give your answer as an exact value.

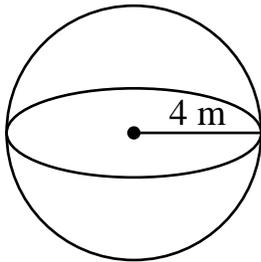

Find the surface area. Give your answer as an exact value.

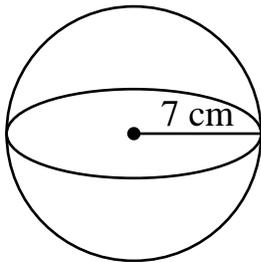

Surface Area of a Sphere (D)

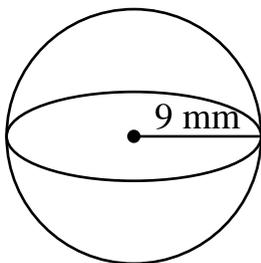

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

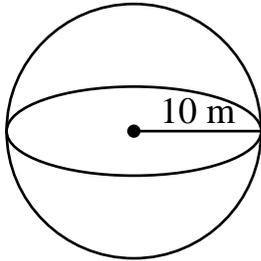

Find the surface area. Give your answer as an exact value.

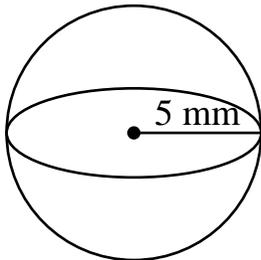

Find the surface area. Give your answer as an exact value.

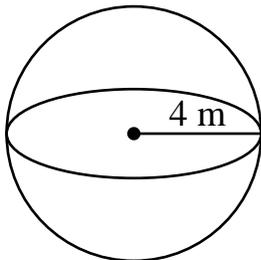

Surface Area of a Sphere (E)

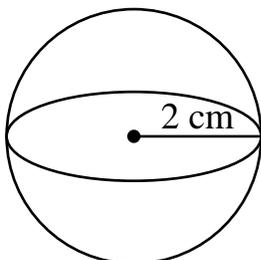

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

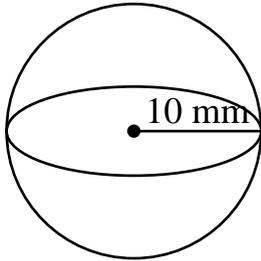

Find the surface area. Give your answer as an exact value.

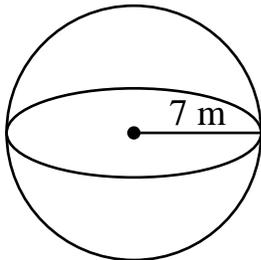

Find the surface area. Give your answer as an exact value.

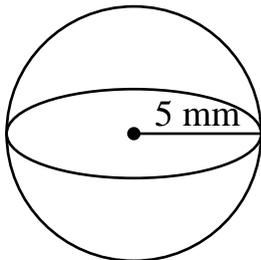

Surface Area of a Sphere (F)

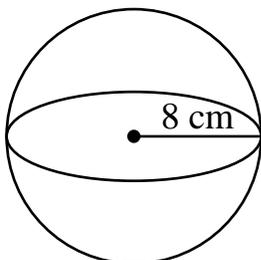

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

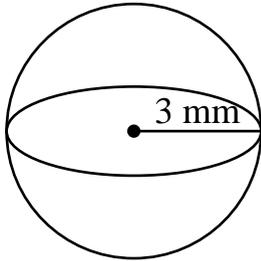

Find the surface area. Give your answer as an exact value.

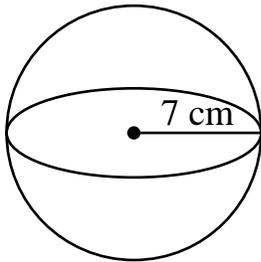

Find the surface area. Give your answer as an exact value.

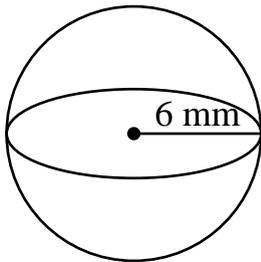

Surface Area of a Sphere (G)

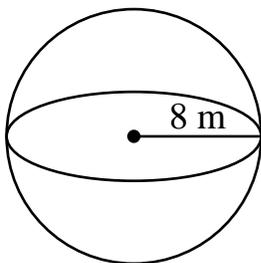

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

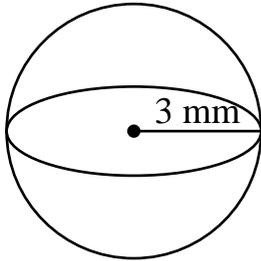

Find the surface area. Give your answer as an exact value.

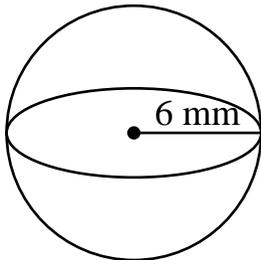

Find the surface area. Give your answer as an exact value.

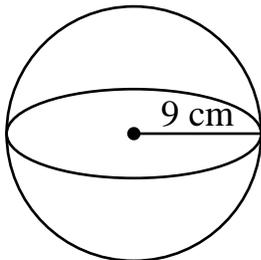

Surface Area of a Sphere (H)

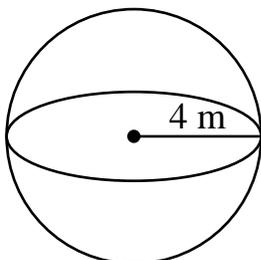

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

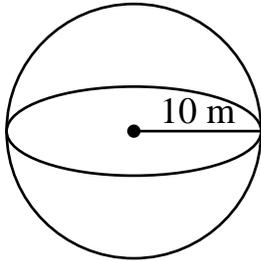

Find the surface area. Give your answer as an exact value.

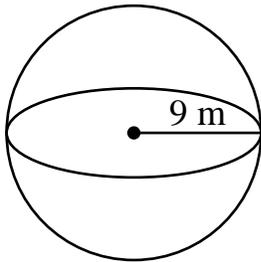

Find the surface area. Give your answer as an exact value.

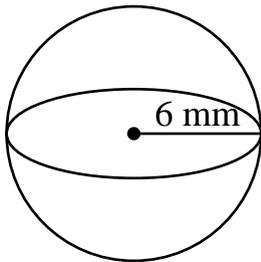

Surface Area of a Sphere (I)

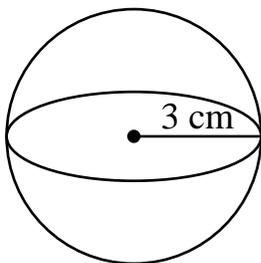

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

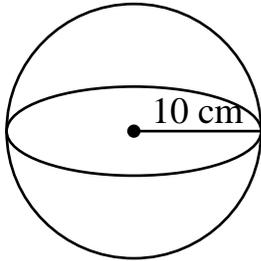

Find the surface area. Give your answer as an exact value.

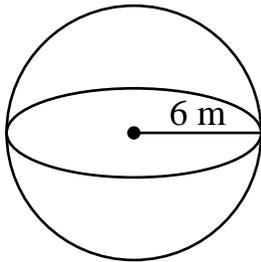

Find the surface area. Give your answer as an exact value.

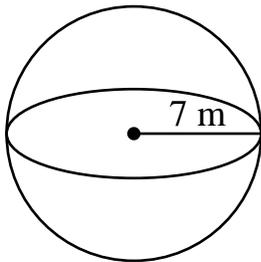

Surface Area of a Sphere (J)

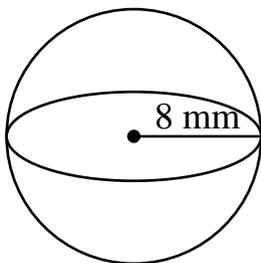

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.

Find the surface area. Give your answer as an exact value.
