

Reflection (A)

The point (2, 2) is shown on the grid.
Reflect the point in the y -axis.

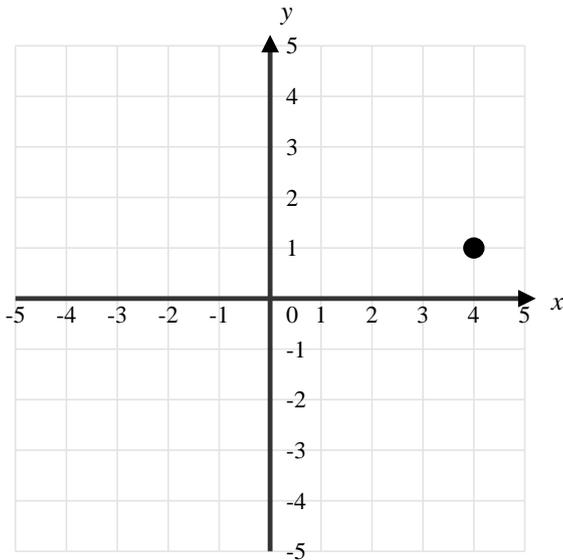

The point (2, 1) is shown on the grid.
Reflect the point in the y -axis.

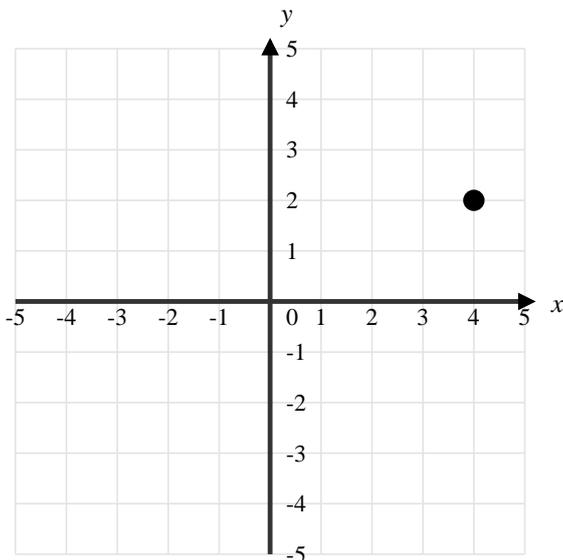

The point (1, 3) is shown on the grid.
Reflect the point in the x -axis.

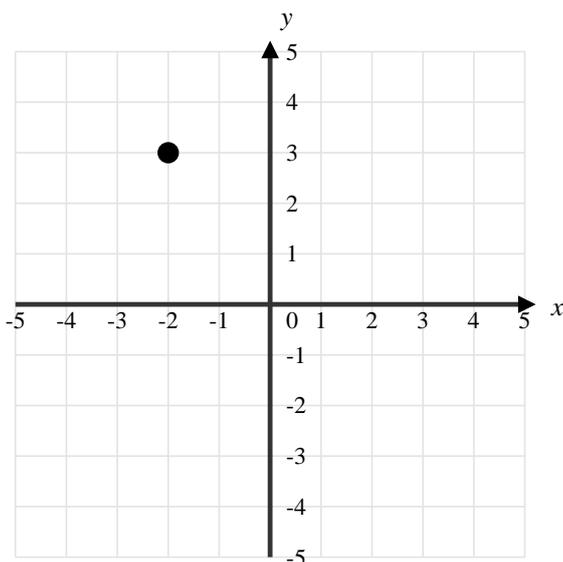

Reflection (B)

The point $(4, 1)$ is shown on the grid.
Reflect the point in the x -axis.

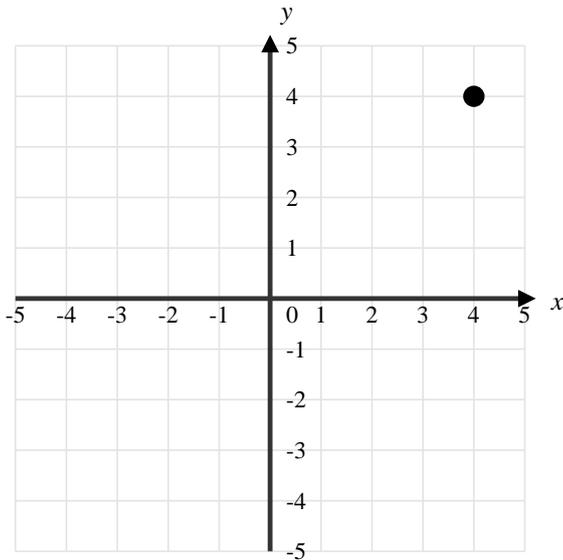

The point $(4, 2)$ is shown on the grid.
Reflect the point in the y -axis.

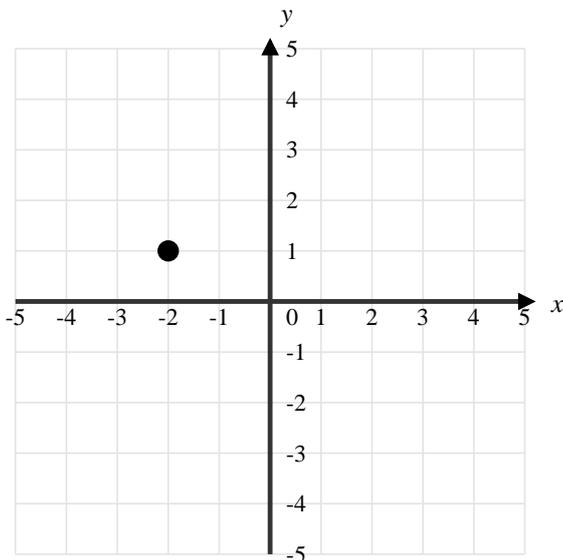

The point $(-2, 3)$ is shown on the grid.
Reflect the point in the x -axis.

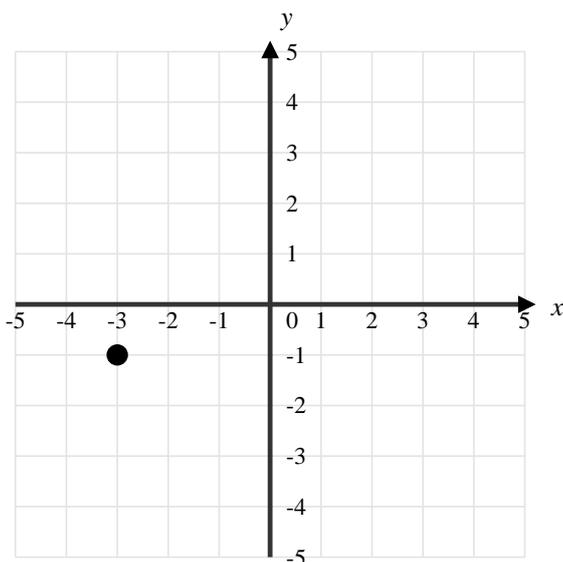

Reflection (C)

The point $(4, 4)$ is shown on the grid.
Reflect the point in the y -axis.

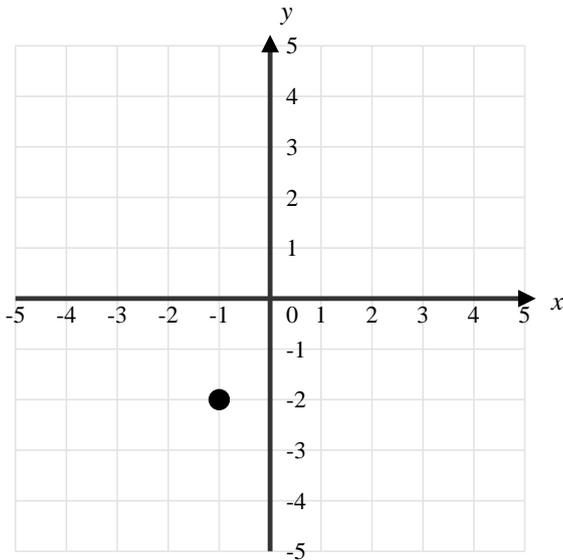

The point $(-2, 1)$ is shown on the grid.
Reflect the point in the x -axis.

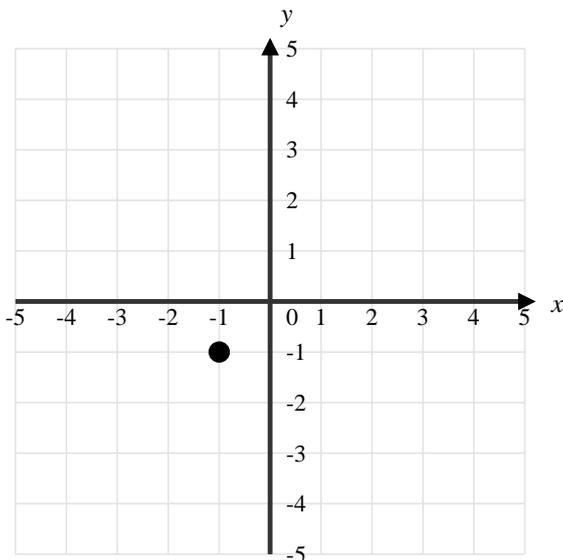

The point $(-3, -1)$ is shown on the grid.
Reflect the point in the x -axis.

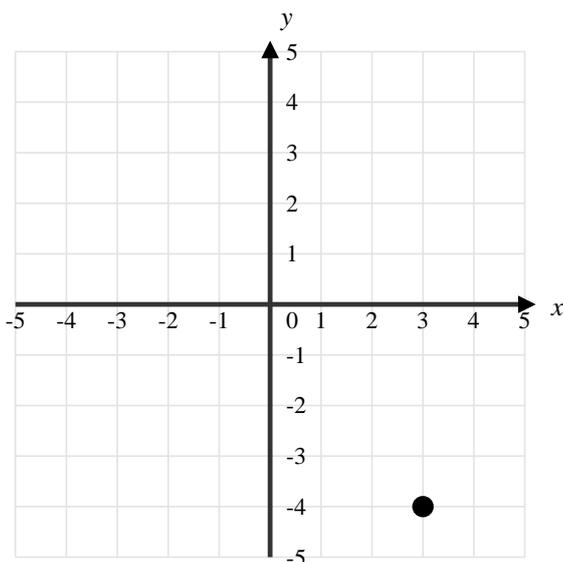

Reflection (D)

The point $(-1, -2)$ is shown on the grid.
Reflect the point in the x -axis.

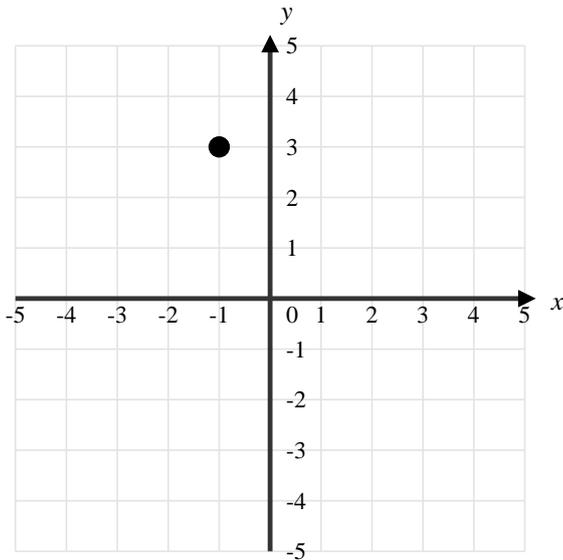

The point $(-1, -1)$ is shown on the grid.
Reflect the point in the y -axis.

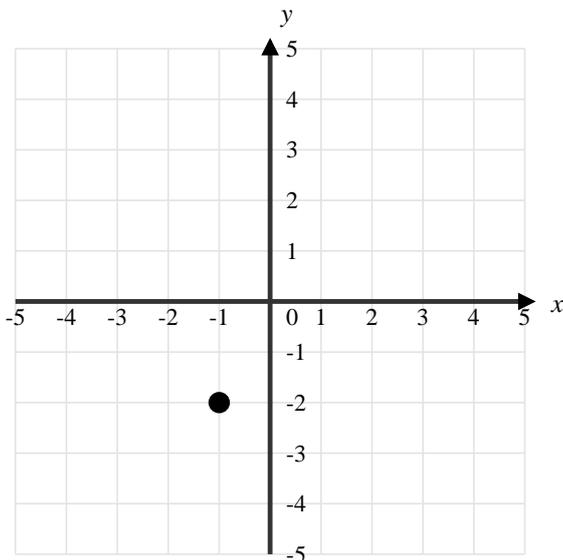

The point $(3, -4)$ is shown on the grid.
Reflect the point in the x -axis.

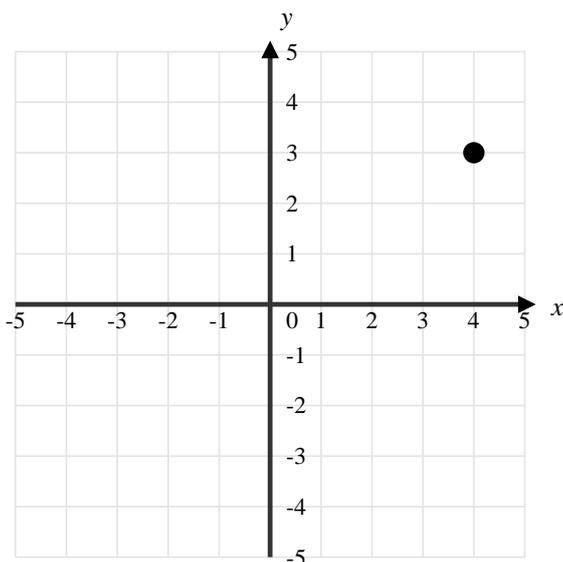

Reflection (E)

The point $(-1, 3)$ is shown on the grid.
Reflect the point in the y -axis.

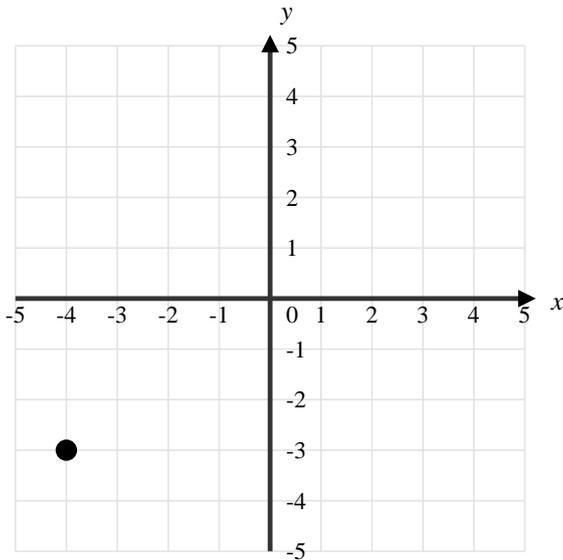

The point $(-1, -2)$ is shown on the grid.
Reflect the point in the y -axis.

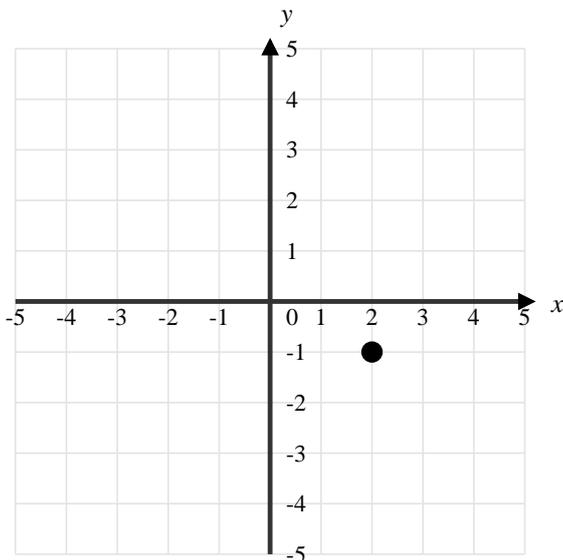

The point $(4, 3)$ is shown on the grid.
Reflect the point in the x -axis.

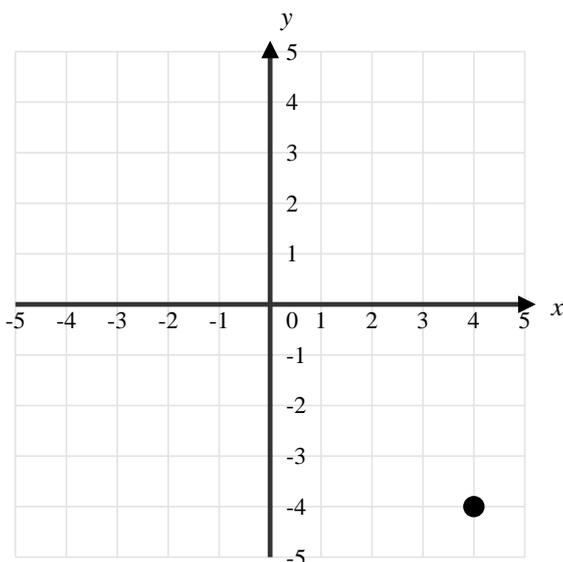

Reflection (F)

The point $(-4, -3)$ is shown on the grid.
Reflect the point in the y -axis.

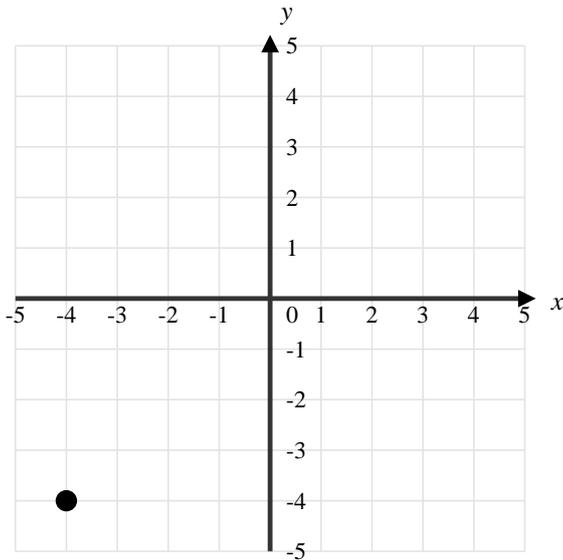

The point $(2, -1)$ is shown on the grid.
Reflect the point in the x -axis.

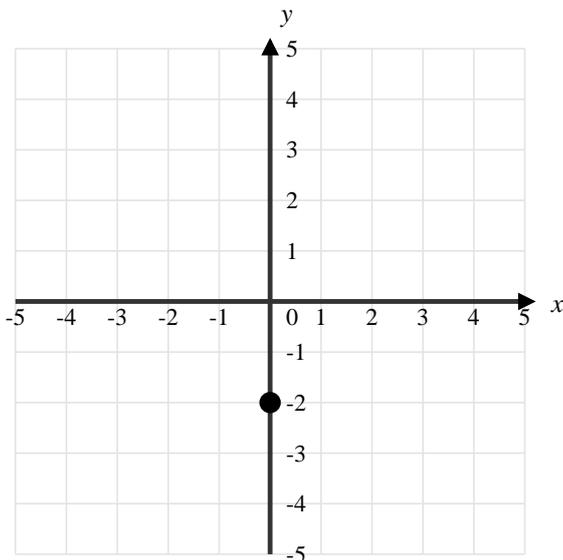

The point $(4, -4)$ is shown on the grid.
Reflect the point in the x -axis.

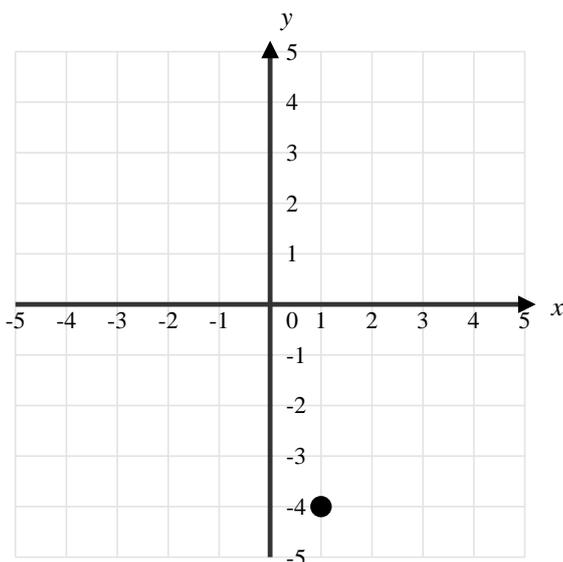

Reflection (G)

The point $(-4, -4)$ is shown on the grid.
Reflect the point in the x -axis.

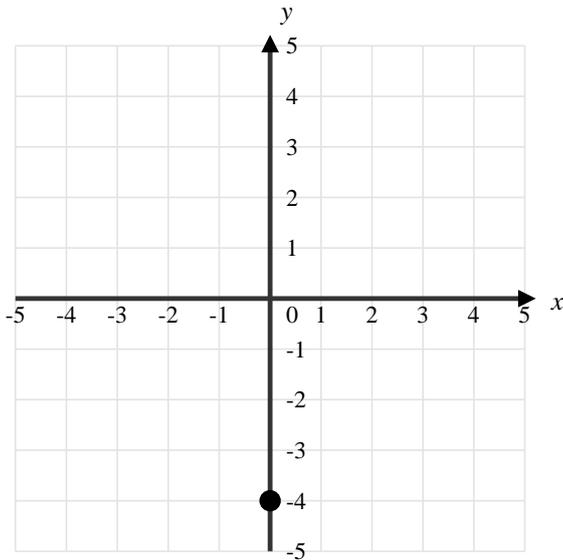

The point $(0, -2)$ is shown on the grid.
Reflect the point in the x -axis.

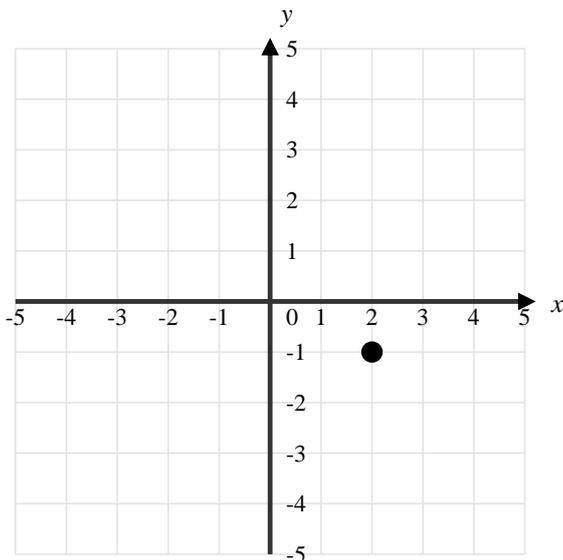

The point $(1, -4)$ is shown on the grid.
Reflect the point in the y -axis.

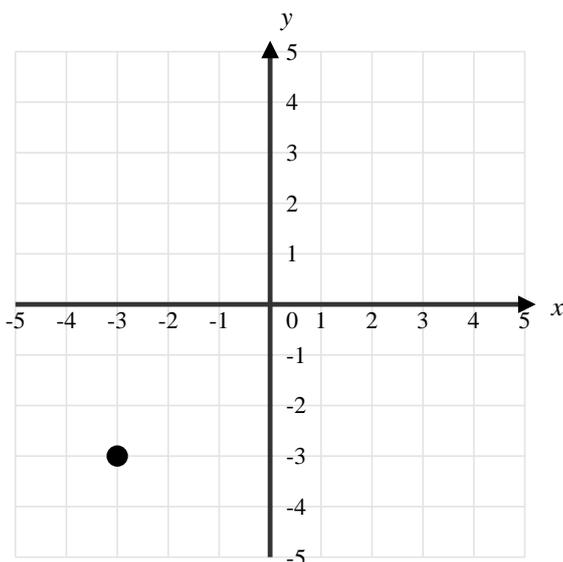

Reflection (H)

The point $(0, -4)$ is shown on the grid.
Reflect the point in the x -axis.

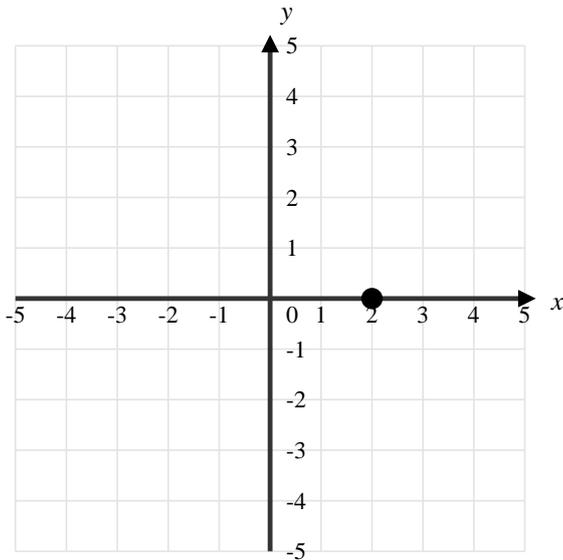

The point $(2, -1)$ is shown on the grid.
Reflect the point in the y -axis.

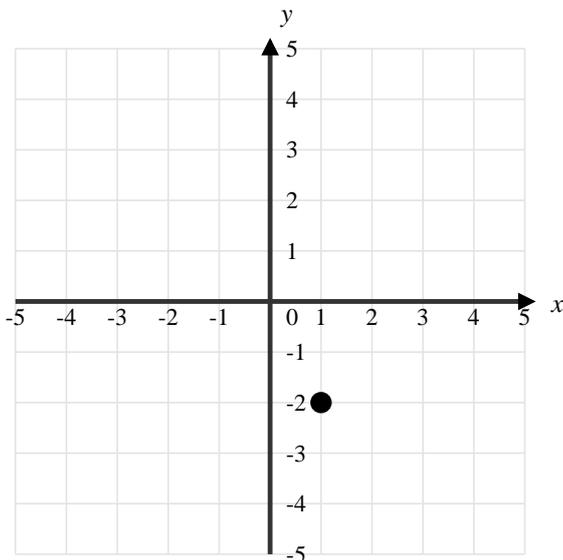

The point $(-3, -3)$ is shown on the grid.
Reflect the point in the y -axis.

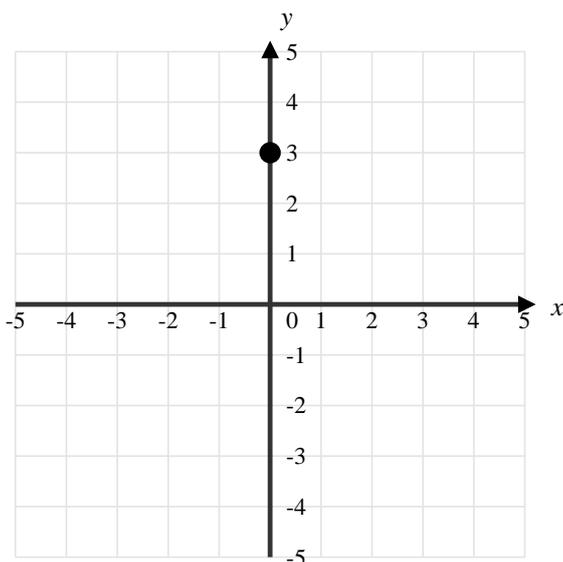

Reflection (I)

The point $(2, 0)$ is shown on the grid.
Reflect the point in the y -axis.

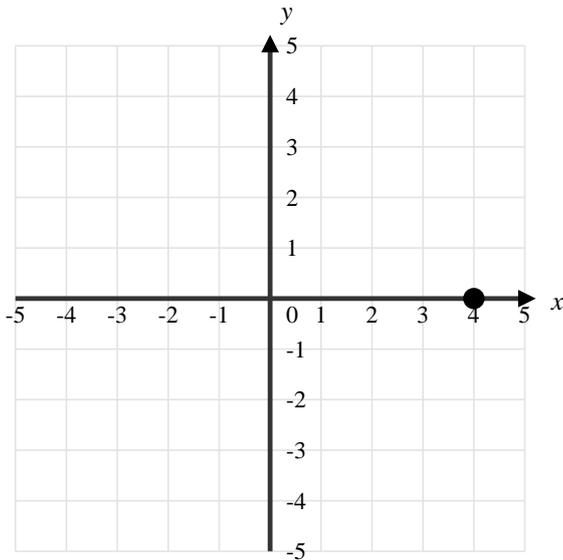

The point $(1, -2)$ is shown on the grid.
Reflect the point in the x -axis.

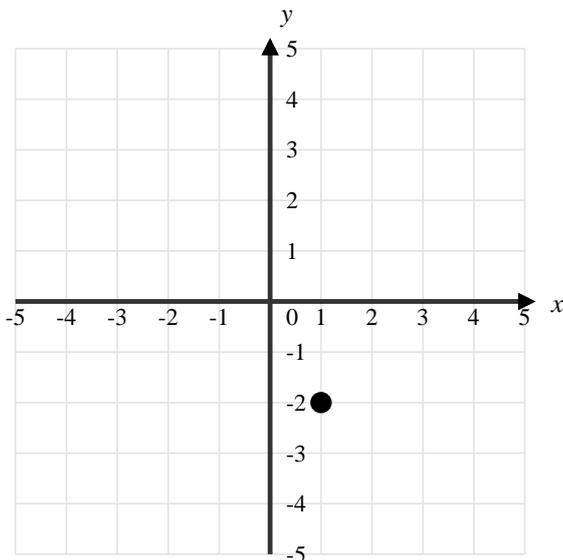

The point $(0, 3)$ is shown on the grid.
Reflect the point in the x -axis.

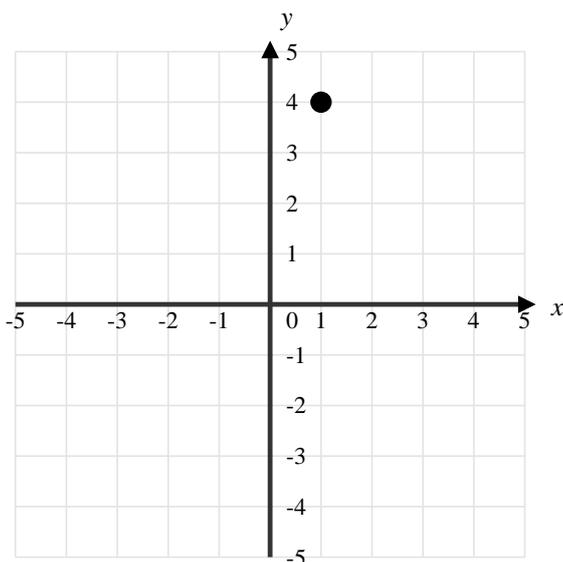

Reflection (J)

The point $(4, 0)$ is shown on the grid.
Reflect the point in the y -axis.

The point $(1, -2)$ is shown on the grid.
Reflect the point in the y -axis.

The point $(1, 4)$ is shown on the grid.
Reflect the point in the x -axis.
