

## Solutions – Percentage Change Multiplier (A)

What is the multiplier for decrease a number by 46% ?

0.54

What is the multiplier for increase a number by 28% ?

1.28

What is the multiplier for decrease a number by 9% ?

0.91

What is the multiplier for increase a number by 13% ?

1.13

What is the multiplier for decrease a number by 70% ?

0.30

What is the multiplier for increase a number by 9% ?

1.09

## Solutions – Percentage Change Multiplier (B)

What is the multiplier for decrease a number by 30% ?

0.70

What is the multiplier for increase a number by 51% ?

1.51

What is the multiplier for decrease a number by 31% ?

0.69

What is the multiplier for decrease a number by 25% ?

0.75

What is the multiplier for increase a number by 2% ?

1.02

What is the multiplier for increase a number by 1% ?

1.01

## Solutions – Percentage Change Multiplier (C)

What is the multiplier for increase a number by 55% ?

1.55

What is the multiplier for increase a number by 9% ?

1.09

What is the multiplier for decrease a number by 13% ?

0.87

What is the multiplier for increase a number by 60% ?

1.60

What is the multiplier for decrease a number by 29% ?

0.71

What is the multiplier for decrease a number by 3% ?

0.97

## Solutions – Percentage Change Multiplier (D)

What is the multiplier for increase a number by 9% ?

1.09

What is the multiplier for decrease a number by 60% ?

0.40

What is the multiplier for increase a number by 63% ?

1.63

What is the multiplier for decrease a number by 26% ?

0.74

What is the multiplier for decrease a number by 3% ?

0.97

What is the multiplier for increase a number by 30% ?

1.30

## Solutions – Percentage Change Multiplier (E)

What is the multiplier for decrease a number by 23%?

0.77

What is the multiplier for decrease a number by 62%?

0.38

What is the multiplier for increase a number by 11%?

1.11

What is the multiplier for increase a number by 10%?

1.10

What is the multiplier for decrease a number by 8%?

0.92

What is the multiplier for increase a number by 68%?

1.68

## Solutions – Percentage Change Multiplier (F)

What is the multiplier for decrease a number by 50%?

0.50

What is the multiplier for increase a number by 12%?

1.12

What is the multiplier for increase a number by 8%?

1.08

What is the multiplier for decrease a number by 70%?

0.30

What is the multiplier for decrease a number by 1%?

0.99

What is the multiplier for increase a number by 24%?

1.24

## Solutions – Percentage Change Multiplier (G)

What is the multiplier for increase a number by 31% ?

1.31

What is the multiplier for increase a number by 15% ?

1.15

What is the multiplier for increase a number by 12% ?

1.12

What is the multiplier for decrease a number by 60% ?

0.40

What is the multiplier for decrease a number by 3% ?

0.97

What is the multiplier for decrease a number by 8% ?

0.92

## Solutions – Percentage Change Multiplier (H)

What is the multiplier for decrease a number by 63%?

0.37

What is the multiplier for increase a number by 1%?

1.01

What is the multiplier for increase a number by 23%?

1.23

What is the multiplier for increase a number by 12%?

1.12

What is the multiplier for decrease a number by 5%?

0.95

What is the multiplier for decrease a number by 38%?

0.62

## Solutions – Percentage Change Multiplier (I)

What is the multiplier for increase a number by 5% ?

1.05

What is the multiplier for decrease a number by 21% ?

0.79

What is the multiplier for decrease a number by 52% ?

0.48

What is the multiplier for decrease a number by 39% ?

0.61

What is the multiplier for increase a number by 7% ?

1.07

What is the multiplier for increase a number by 25% ?

1.25

## Solutions – Percentage Change Multiplier (J)

What is the multiplier for increase a number by 28%?

1.28

What is the multiplier for decrease a number by 31%?

0.69

What is the multiplier for increase a number by 3%?

1.03

What is the multiplier for decrease a number by 28%?

0.72

What is the multiplier for increase a number by 1%?

1.01

What is the multiplier for decrease a number by 68%?

0.32
