

Angles in Parallel Lines (A)

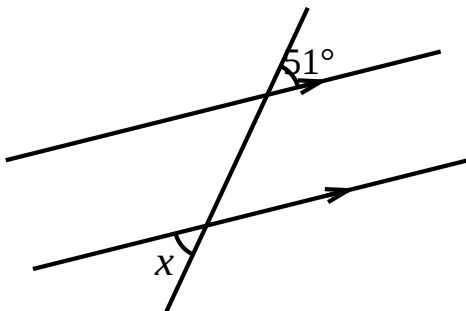

Find the value of x .

Find the value of x .

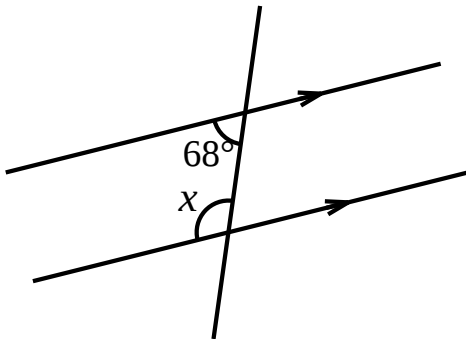

Find the value of x .

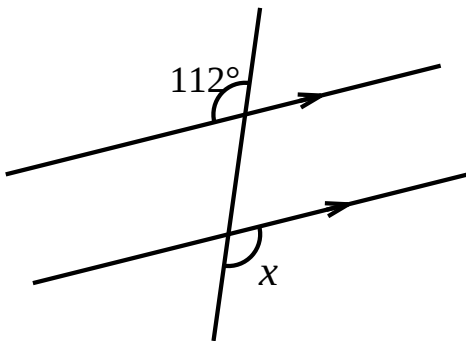

Find the value of x .

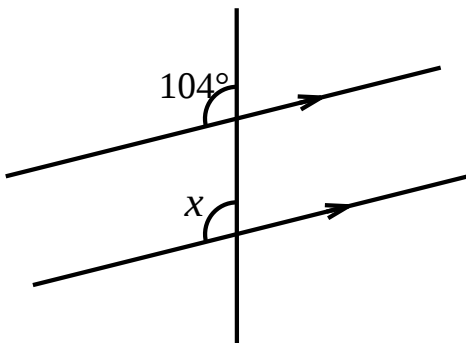

Angles in Parallel Lines (B)

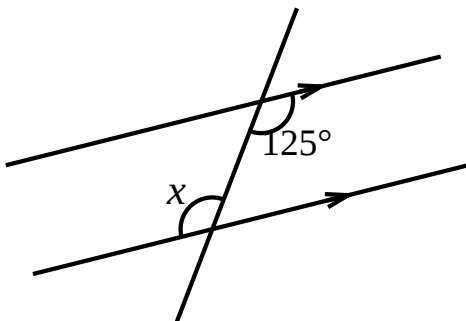

Find the value of x .

Find the value of x .

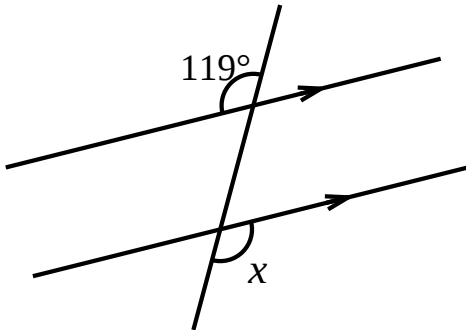

Find the value of x .

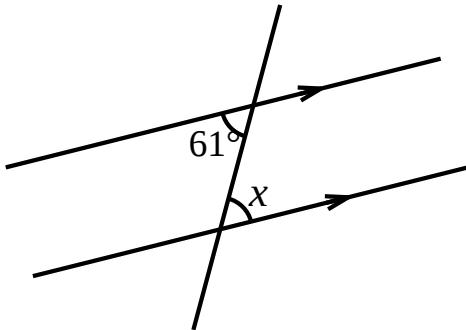

Find the value of x .

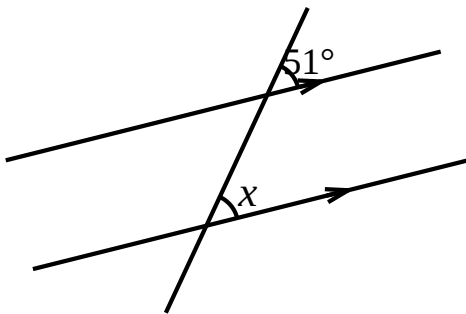

Angles in Parallel Lines (C)

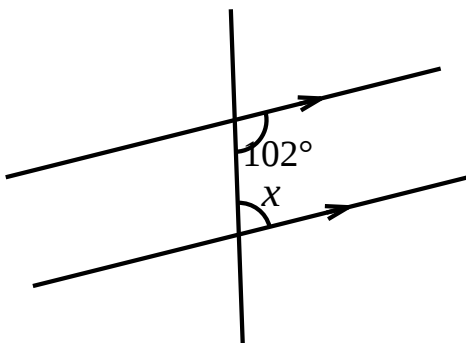

Find the value of x .

Find the value of x .

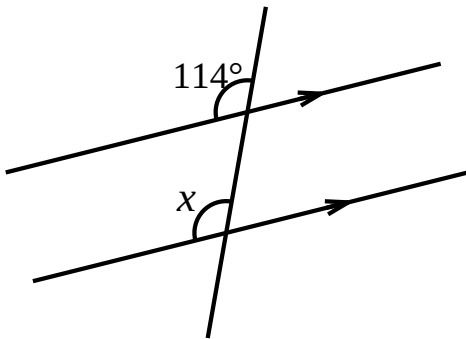

Find the value of x .

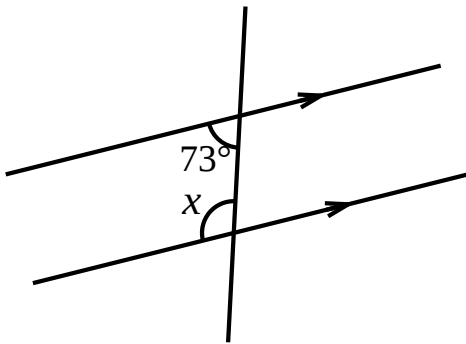

Find the value of x .

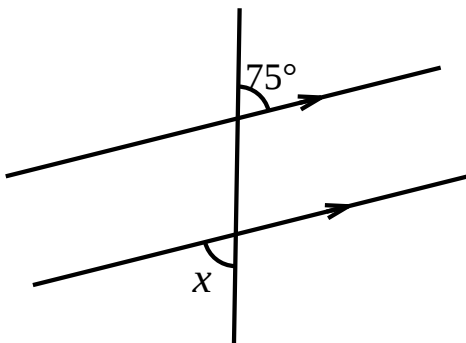

Angles in Parallel Lines (D)

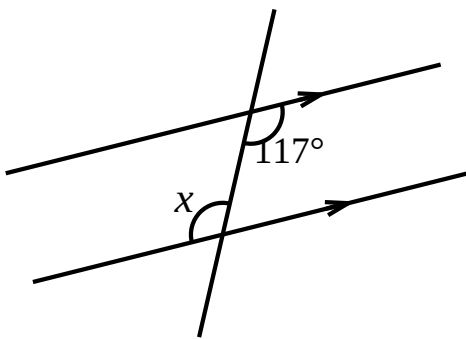

Find the value of x .

Find the value of x .

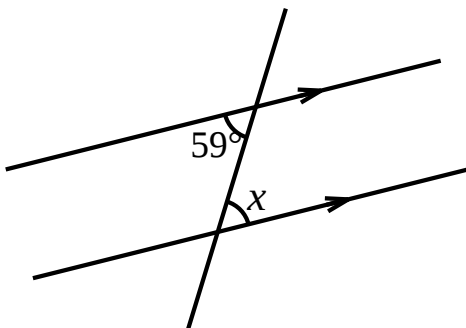

Find the value of x .

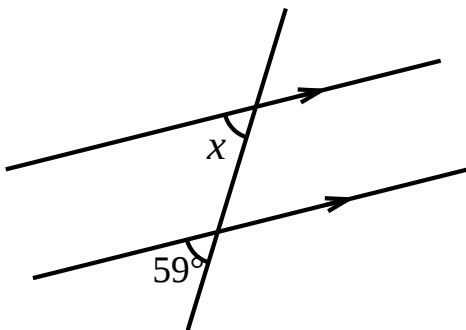

Find the value of x .

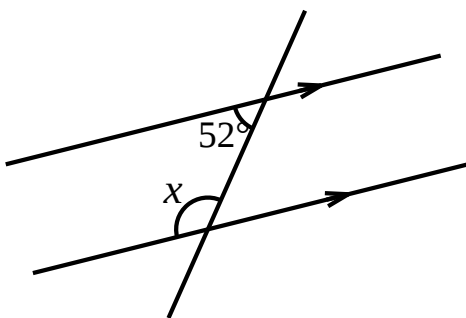

Angles in Parallel Lines (E)

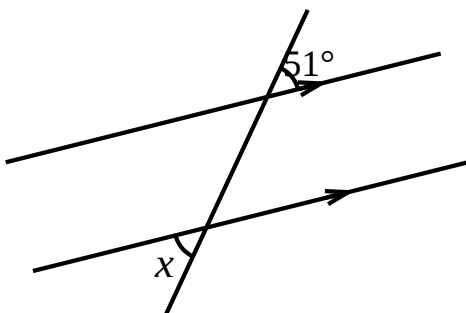

Find the value of x .

Find the value of x .

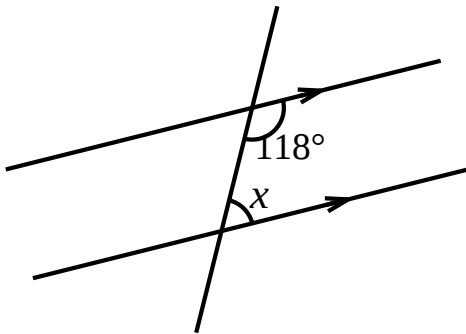

Find the value of x .

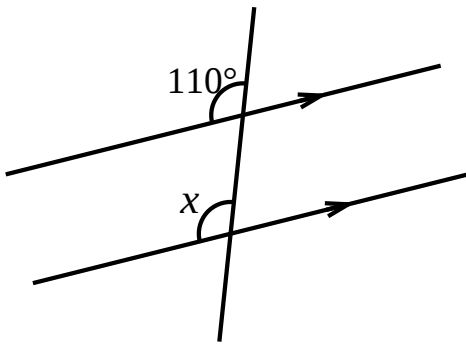

Find the value of x .

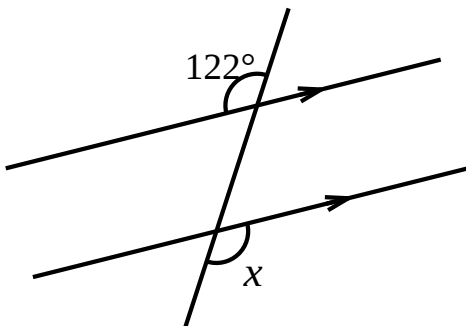

Angles in Parallel Lines (F)

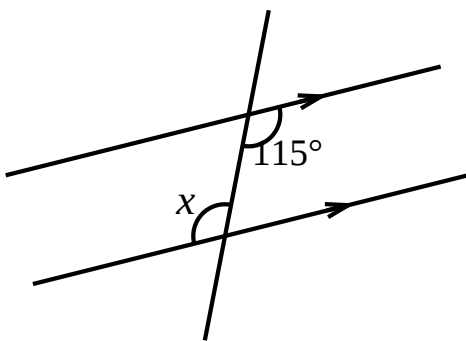

Find the value of x .

Find the value of x .

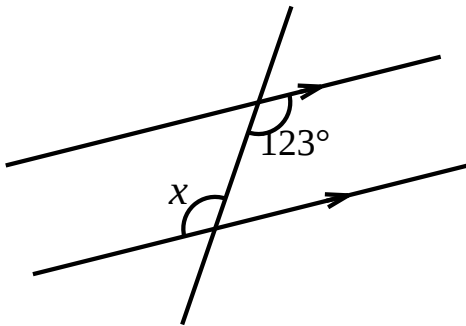

Find the value of x .

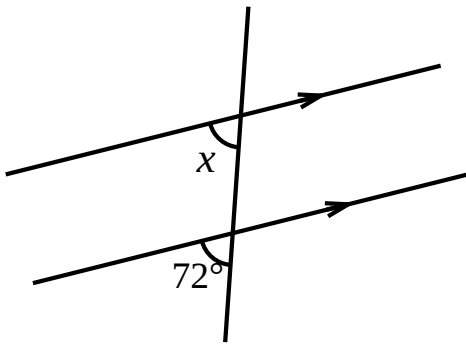

Find the value of x .

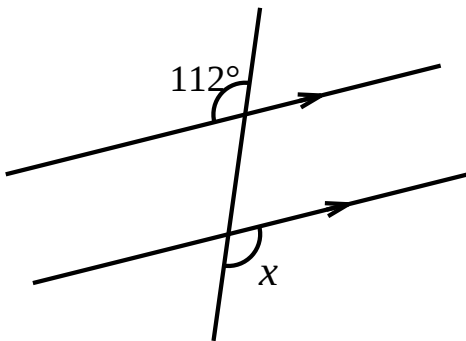

Angles in Parallel Lines (G)

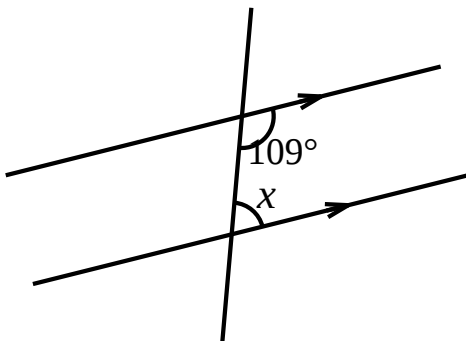

Find the value of x .

Find the value of x .

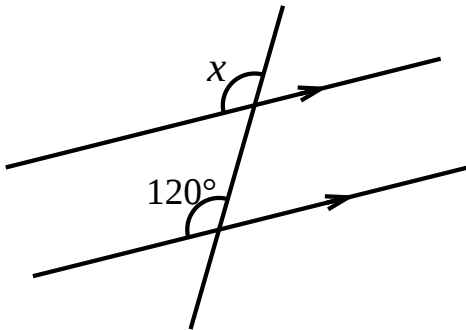

Find the value of x .

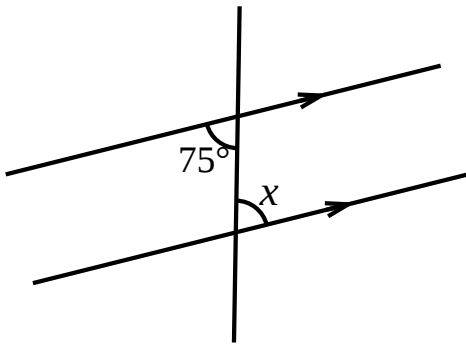

Find the value of x .

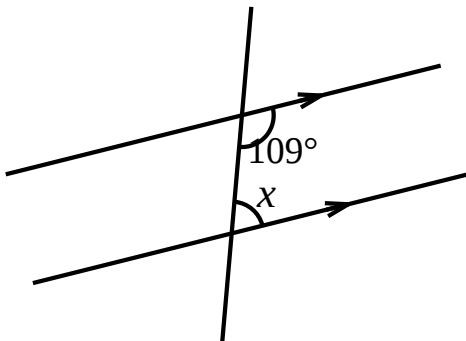

Angles in Parallel Lines (H)

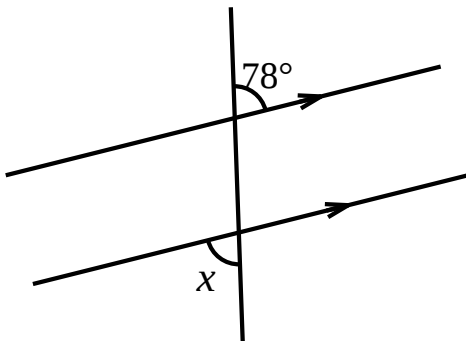

Find the value of x .

Find the value of x .

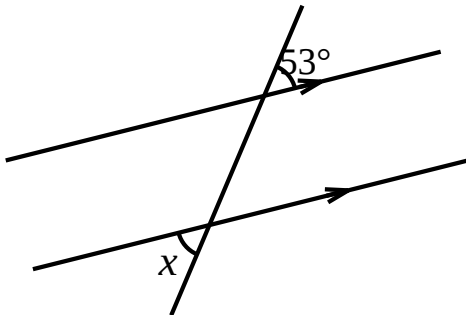

Find the value of x .

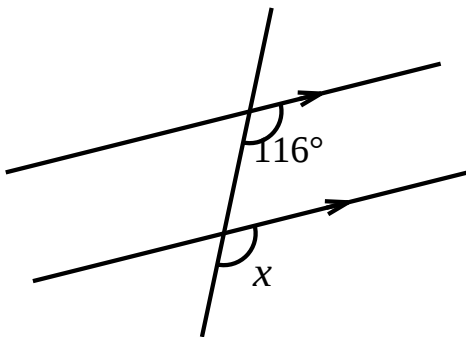

Find the value of x .

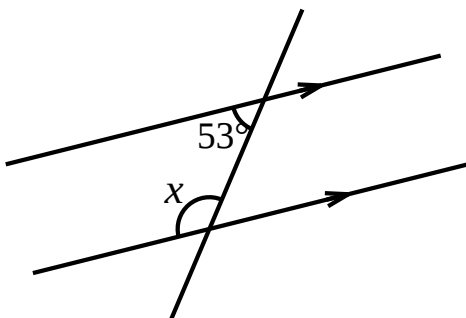

Angles in Parallel Lines (I)

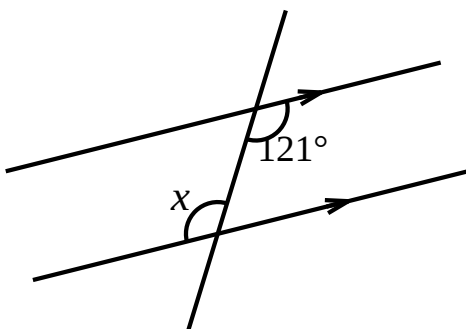

Find the value of x .

Find the value of x .

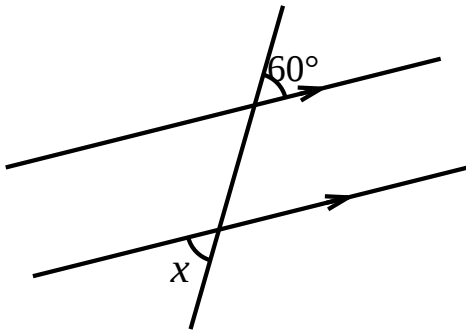

Find the value of x .

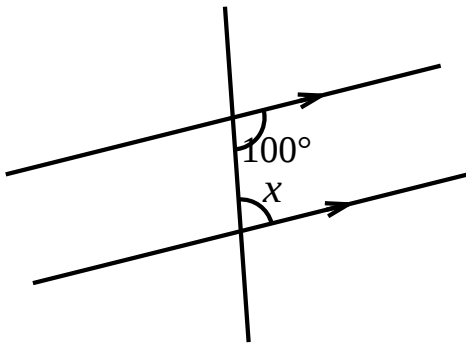

Find the value of x .

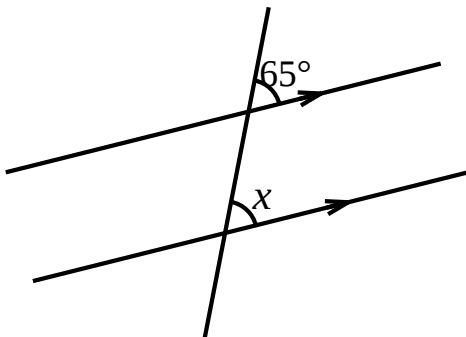

Angles in Parallel Lines (J)

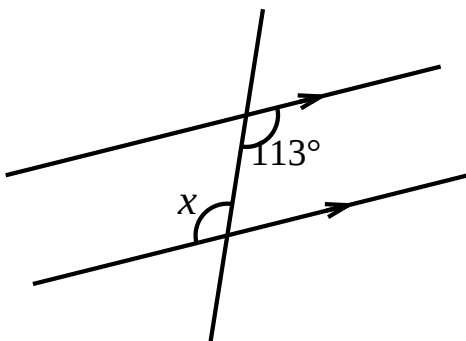

Find the value of x .

Find the value of x .

Find the value of x .

Find the value of x .
