

Solutions – Reading a Measuring Cup (A)

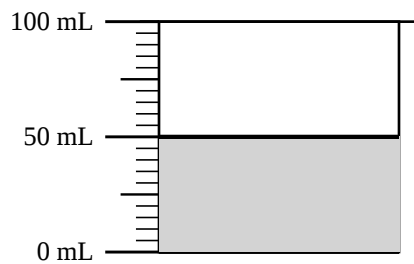

How much liquid is in the cup?

145 mL

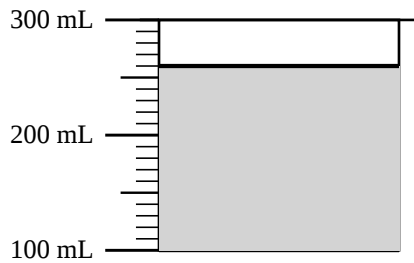

How much liquid is in the cup?

50 mL

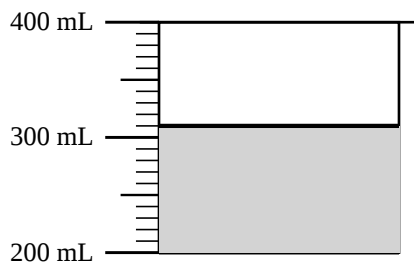

How much liquid is in the cup?

260 mL

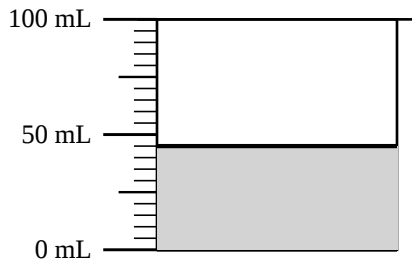

How much liquid is in the cup?

310 mL

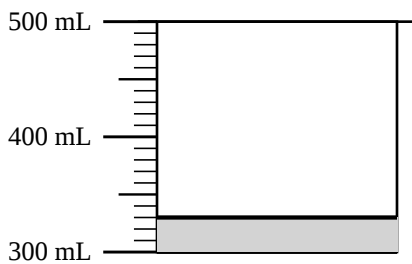

Solutions – Reading a Measuring Cup (B)

How much liquid is in the cup?

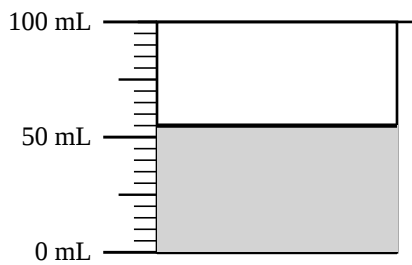

45 mL

How much liquid is in the cup?

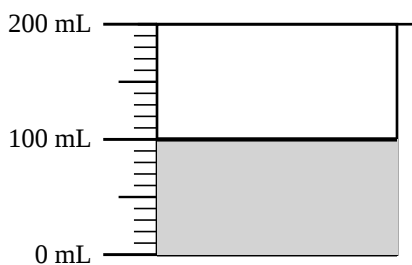

330 mL

How much liquid is in the cup?

55 mL

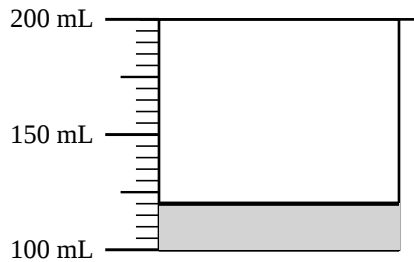

How much liquid is in the cup?

100 mL

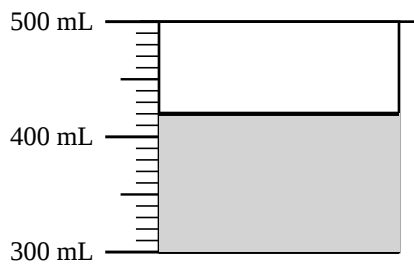

Solutions – Reading a Measuring Cup (C)

How much liquid is in the cup?

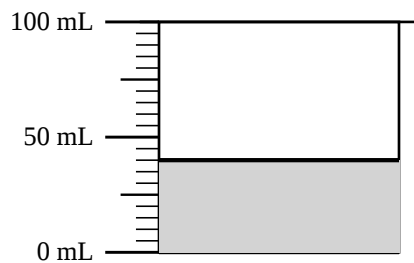

120 mL

How much liquid is in the cup?

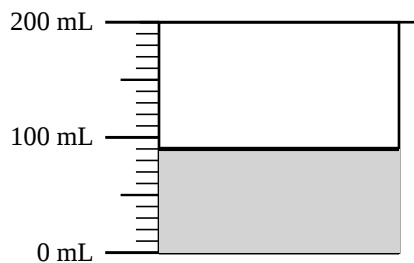

420 mL

How much liquid is in the cup?

40 mL

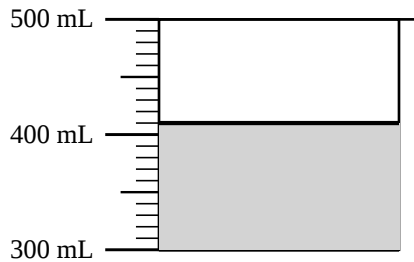

How much liquid is in the cup?

90 mL

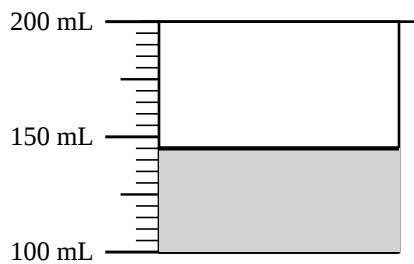

Solutions – Reading a Measuring Cup (D)

How much liquid is in the cup?

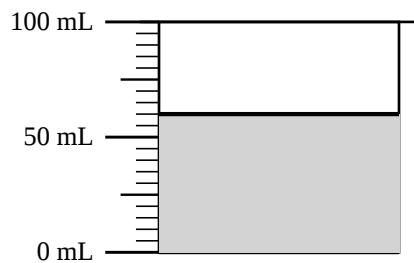

410 mL

How much liquid is in the cup?

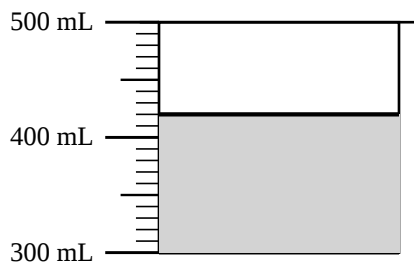

145 mL

How much liquid is in the cup?

60 mL

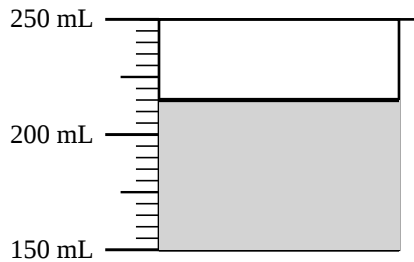

How much liquid is in the cup?

420 mL

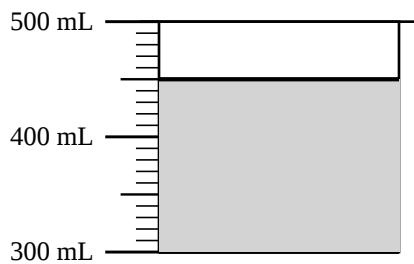

Solutions – Reading a Measuring Cup (E)

How much liquid is in the cup?

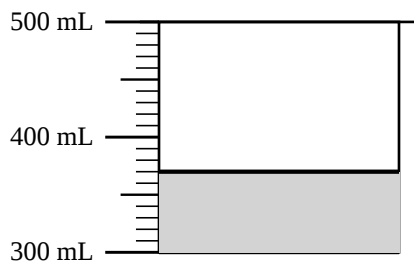

215 mL

How much liquid is in the cup?

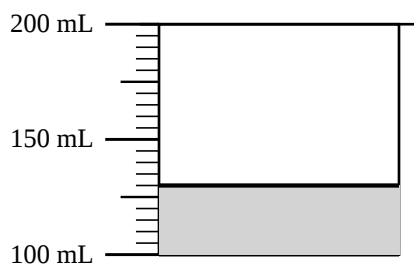

450 mL

How much liquid is in the cup?

370 mL

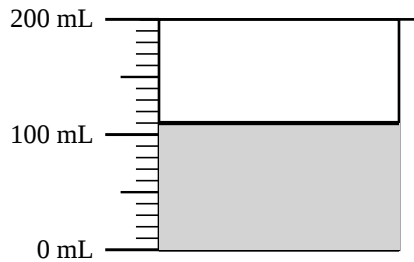

How much liquid is in the cup?

130 mL

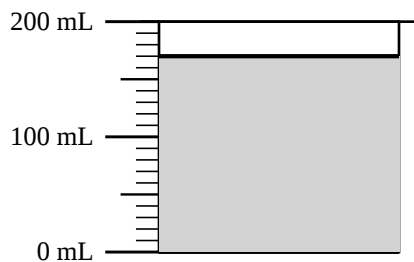

Solutions – Reading a Measuring Cup (F)

How much liquid is in the cup?

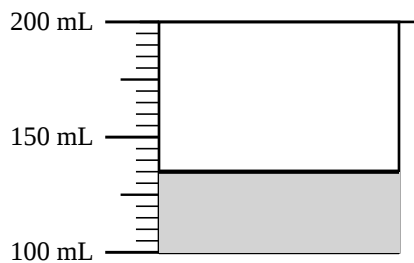

110 mL

How much liquid is in the cup?

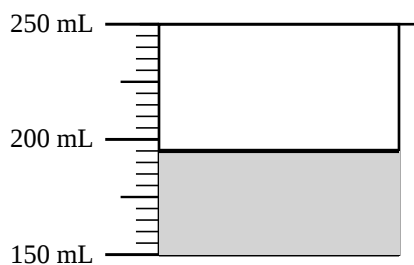

170 mL

How much liquid is in the cup?

135 mL

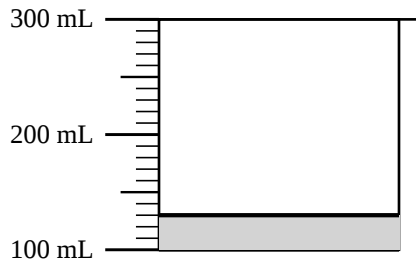

How much liquid is in the cup?

195 mL

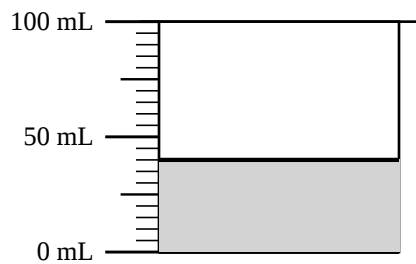

Solutions – Reading a Measuring Cup (G)

How much liquid is in the cup?

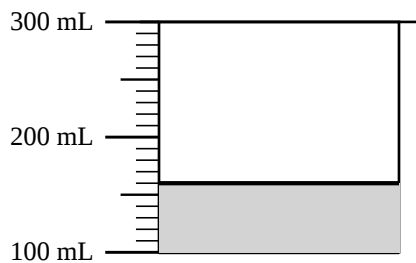

130 mL

How much liquid is in the cup?

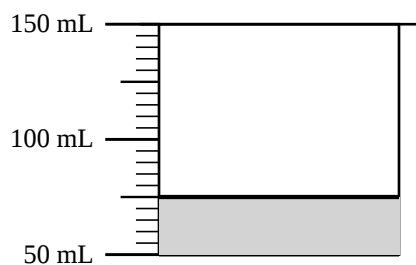

40 mL

How much liquid is in the cup?

160 mL

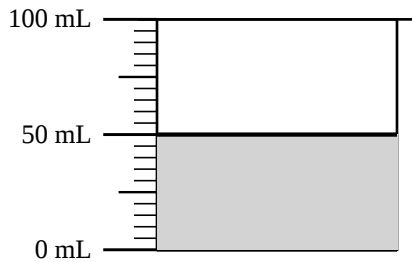

How much liquid is in the cup?

75 mL

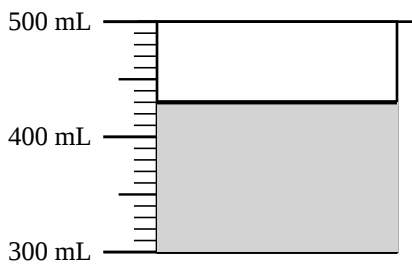

Solutions – Reading a Measuring Cup (H)

How much liquid is in the cup?

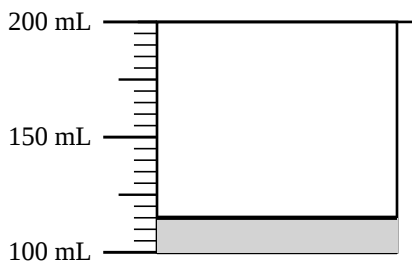

50 mL

How much liquid is in the cup?

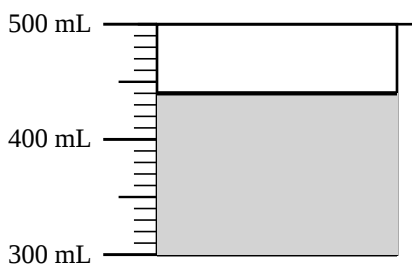

430 mL

How much liquid is in the cup?

115 mL

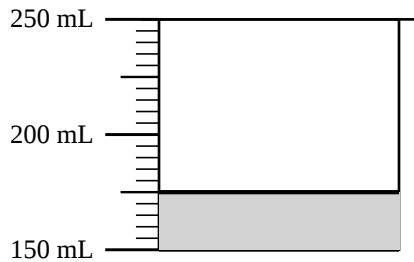

How much liquid is in the cup?

440 mL

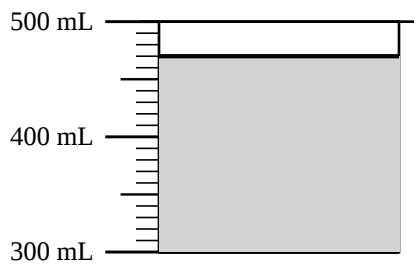

Solutions – Reading a Measuring Cup (I)

How much liquid is in the cup?

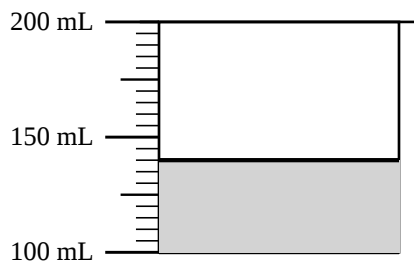

175 mL

How much liquid is in the cup?

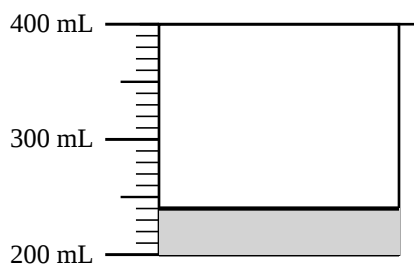

470 mL

How much liquid is in the cup?

140 mL

How much liquid is in the cup?

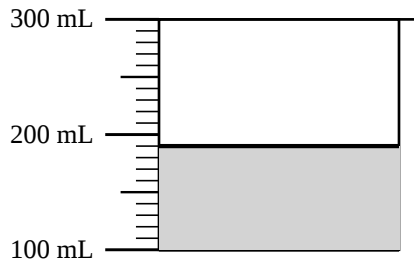

240 mL

Solutions – Reading a Measuring Cup (J)

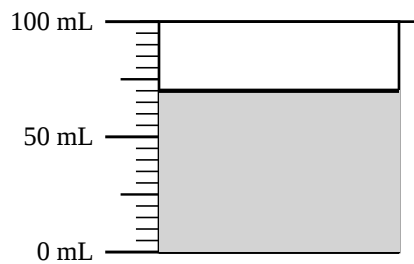

How much liquid is in the cup?

190 mL

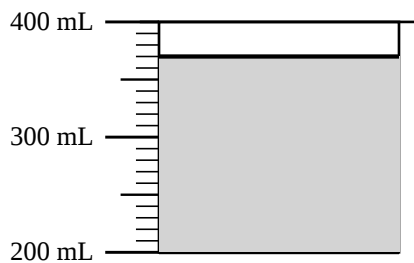

How much liquid is in the cup?

70 mL

How much liquid is in the cup?

370 mL

How much liquid is in the cup?

155 mL
