

Volume of 3D Shapes (A)

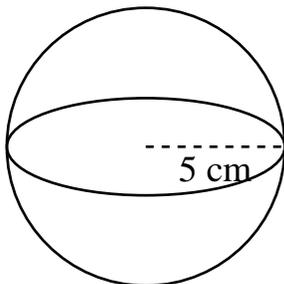

Find the volume. Give your answer as an exact value.

Find the volume.

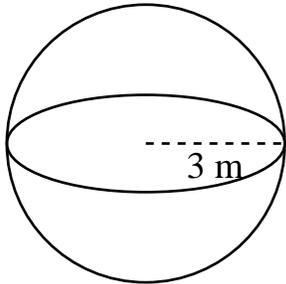

Find the volume.

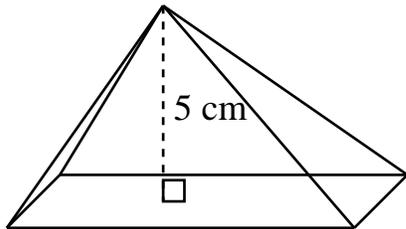

Find the volume. Give your answer as an exact value.

Volume of 3D Shapes (B)

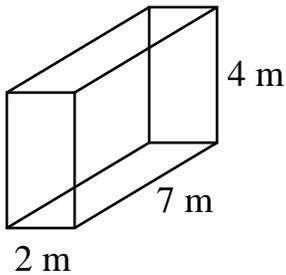

Find the volume. Give your answer as an exact value.

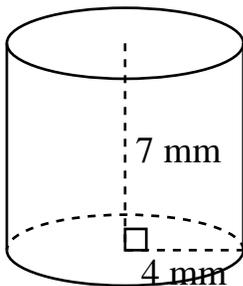

Base area = 14 cm^2

Find the volume.

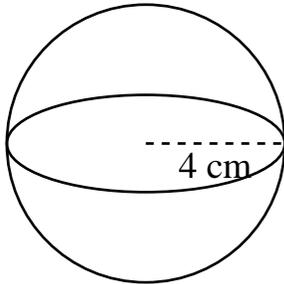

Find the volume.

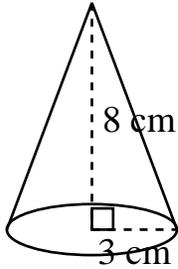

Find the volume. Give your answer as an exact value.

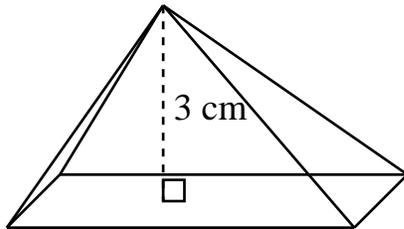

Volume of 3D Shapes (C)

Find the volume. Give your answer as an exact value.

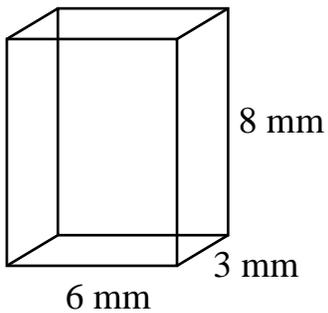

Find the volume. Give your answer as an exact value.

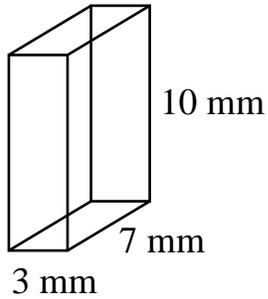

Base area = 25 cm^2

Find the volume.

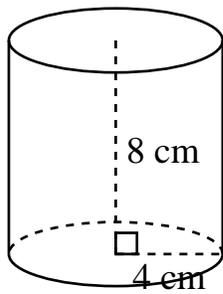

Find the volume.

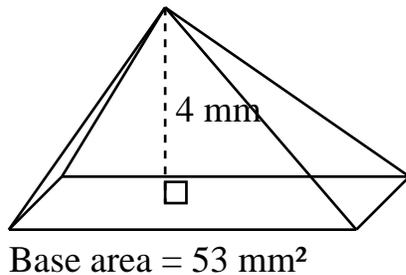

Volume of 3D Shapes (D)

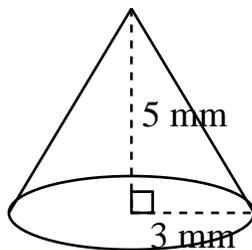

Find the volume.

Find the volume. Give your answer as an exact value.

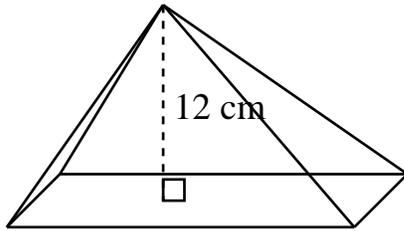

Find the volume.

Find the volume. Give your answer as an exact value.

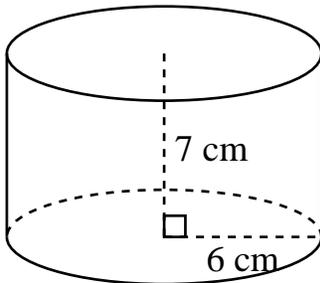

Volume of 3D Shapes (E)

Find the volume.

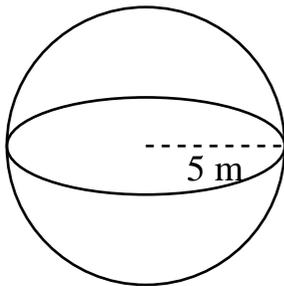

Base area = 45 cm^2

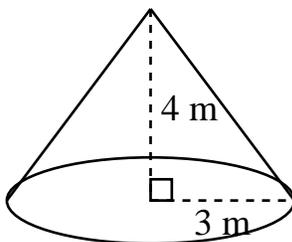

Find the volume. Give your answer as an exact value.

Find the volume. Give your answer as an exact value.

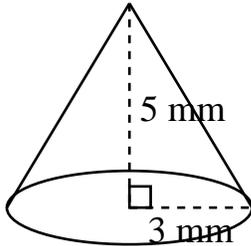

Find the volume. Give your answer as an exact value.

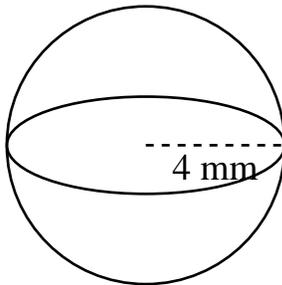

Volume of 3D Shapes (F)

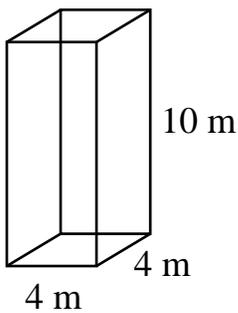

Find the volume. Give your answer as an exact value.

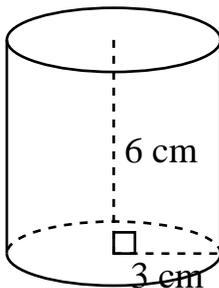

Find the volume. Give your answer as an exact value.

Find the volume.

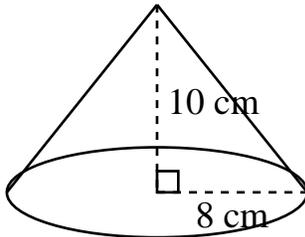

Find the volume. Give your answer as an exact value.

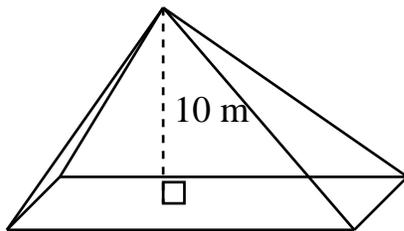

Volume of 3D Shapes (G)

Find the volume. Give your answer as an exact value.

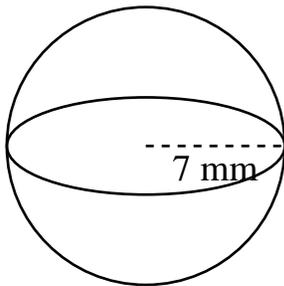

Find the volume.

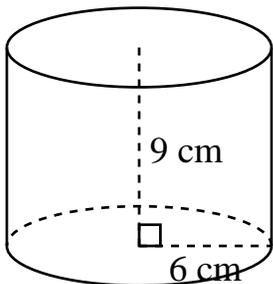

Base area = 9 m^2

Find the volume. Give your answer as an exact value.

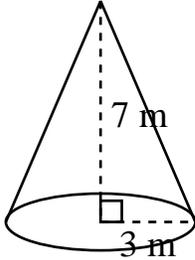

Find the volume. Give your answer as an exact value.

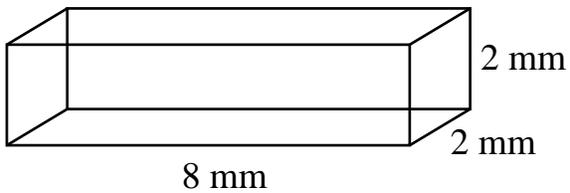

Volume of 3D Shapes (H)

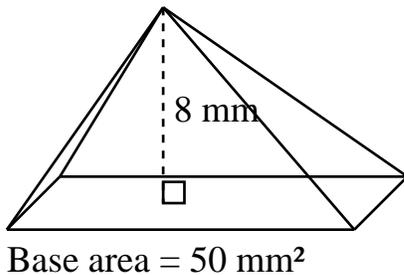

Find the volume. Give your answer as an exact value.

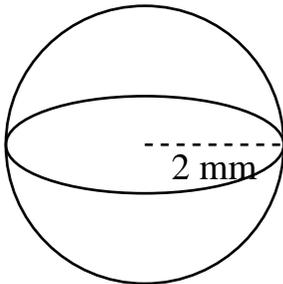

Find the volume.

Find the volume.

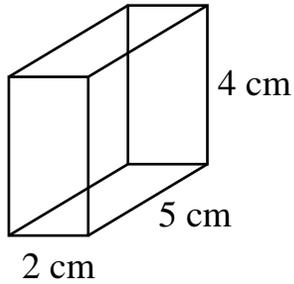

Find the volume. Give your answer as an exact value.

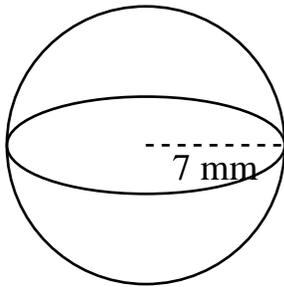

Volume of 3D Shapes (I)

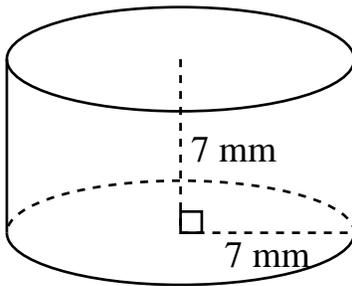

Find the volume.

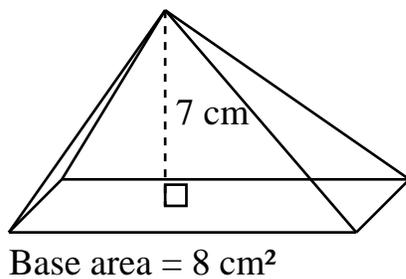

Find the volume. Give your answer as an exact value.

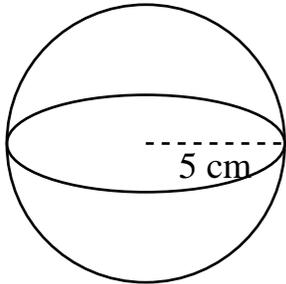

Find the volume. Give your answer as an exact value.

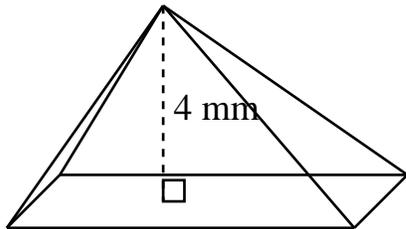

Find the volume.

Volume of 3D Shapes (J)

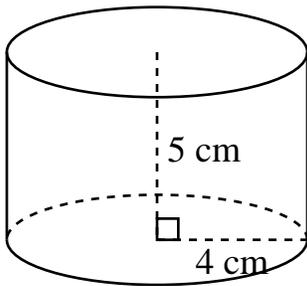

Find the volume. Give your answer as an exact value.

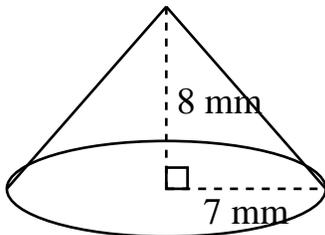

Base area = 45 mm^2

Find the volume.

Find the volume. Give your answer as an exact value.

Find the volume. Give your answer as an exact value.
