

Identifying Shapes (A)

How many sides does a hexagon have?

How many sides does a nonagon have?

How many sides does a heptagon have?

How many sides does a decagon have?

How many sides does a heptagon have?

How many sides does a heptagon have?

Identifying Shapes (B)

How many sides does a hexagon have?

How many sides does a triangle have?

How many sides does a octagon have?

How many sides does a heptagon have?

How many sides does a quadrilateral have?

How many sides does a quadrilateral have?

Identifying Shapes (C)

How many sides does a decagon have?

How many sides does a quadrilateral have?

How many sides does a heptagon have?

How many sides does a quadrilateral have?

How many sides does a pentagon have?

How many sides does a triangle have?

Identifying Shapes (D)

How many sides does a pentagon have?

How many sides does a pentagon have?

How many sides does a decagon have?

How many sides does a triangle have?

How many sides does a pentagon have?

How many sides does a heptagon have?

Identifying Shapes (E)

How many sides does a decagon have?

How many sides does a triangle have?

How many sides does a nonagon have?

How many sides does a quadrilateral have?

How many sides does a triangle have?

How many sides does a pentagon have?

Identifying Shapes (F)

How many sides does a nonagon have?

How many sides does a heptagon have?

How many sides does a hexagon have?

How many sides does a octagon have?

How many sides does a quadrilateral have?

How many sides does a nonagon have?

Identifying Shapes (G)

How many sides does a triangle have?

How many sides does a quadrilateral have?

How many sides does a hexagon have?

How many sides does a quadrilateral have?

How many sides does a hexagon have?

How many sides does a decagon have?

Identifying Shapes (H)

How many sides does a hexagon have?

How many sides does a pentagon have?

How many sides does a pentagon have?

How many sides does a triangle have?

How many sides does a octagon have?

How many sides does a hexagon have?

Identifying Shapes (I)

How many sides does a decagon have?

How many sides does a decagon have?

How many sides does a nonagon have?

How many sides does a quadrilateral have?

How many sides does a triangle have?

How many sides does a nonagon have?

Identifying Shapes (J)

How many sides does a nonagon have?

How many sides does a octagon have?

How many sides does a pentagon have?

How many sides does a octagon have?

How many sides does a nonagon have?

How many sides does a heptagon have?
